## Life Path

### Ascendant In Libra

PROFESSIONAL - LIFE-PATH: Relating

You have a talent for dealing with people. Your social nature combined with a fine aesthetic judgement gives you the opportunity to excel professionally in areas where good taste and an ability to weigh things in the balance are needed. This can vary from creative pursuits dealing with music or objects of beauty, to consultancy or dealing with personnel. You are strongly motivated to create peace and harmony around you, and will often find yourself taking the middle position between warring parties. As a natural diplomat, you will be appreciated by those you come into contact with. Some may feel you are manipulative, but most people benefit from your genuine concern for their well-being. At crucial times in your life, you may appear to be indecisive. You can agonise about taking a decision, and no amount of information gathering will help you. Ultimately you take decisions on an intuitive level.

PERSONAL - LIFE-PATH: Relating

Basically you are a friendly type of person, and you have a genuine and natural interest in other people. You probably come across as a sociable and charming person, and you have a special talent for creating an atmosphere of peace and harmony. Partnerships are alpha and omega for you, and you will seldom be alone in your life. You are willing to make many compromises to ensure that a relationship functions smoothly. Using your ability to see matters from another person's point of view, you can defuse conflict before it begins. However this tendency may be construed by others as a reluctance to confront important matters when they arise, and this in turn evokes a confrontational attitude in those who are close to you. You have a fine discriminating judgement - use this to discern when you should compromise, and when you should make a stand.

### Ascendant Sextile Moon

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

When reading the following text, please bear in mind that you will for the most part experience only the positive effects of this aspect. You are particularly stimulated to learn and communicate, as regards the matters concerned.

PROFESSIONAL - LIFE PATH: Unconscious attunement

You have an emotionally compelling nature which profoundly affects the feelings of the people you associate with. You are very concerned with the emotional bonds which hold people together, as well as issues of security. You can therefore work for example with the needs of the public in some way especially as related to homes, family or motherhood. You infuse all your work with an emotional investment. A hard professional environment is bad for you.

PERSONAL - LIFE PATH: Unconscious attunement

You are a moody person and will often find yourself affected by fluctuating emotional states - especially through worrying about family matters or security issues. You have a deep appreciation of the power of the unconscious and instinctual behaviour. In your dealings with people unspoken feelings have far greater priority than rational concerns or argument. You are finely tuned to changes in atmosphere, and adjust accordingly.

### Ascendant Conjunction Venus

This aspect is of medium strength and its influence will often be felt, though not acutely.

Two energies are unified into one in this planetary aspect, and

you will express this energy in a very personal way, for good or ill depending on other factors in your chart.

PROFESSIONAL - LIFE PATH: Aesthetic comportment

You have the ability to create a pleasing impression, and generally you comport yourself diplomatically and with all the social graces. As the ability to win the affections and confidence of others is one of your greatest talents, you would do well dealing with people in one form or another in your professional life. Aesthetic issues are also of great importance to you, and this may be reflected in your work.

PERSONAL - LIFE PATH: Aesthetic comportment

You exude an aura of grace and good taste, and this can win you many friends and admirers. Your dress, and taste in personal adornment, creates a very harmonious and pleasing atmosphere. You are easily seduced by beauty, and often led astray by affairs of the heart. Stable relationships can be threatened by your need for romance. Love is the spice of life. You have a weakness for sensory stimulation and luxury.

### Ascendant Sextile Jupiter

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

PROFESSIONAL - LIFE PATH: The counsellor

You are not interested in trivia, and therefore seek a profession which gives some kind of overall meaning. You are probably destined for success, and can exert considerable influence through the power of your opinions or good judgement. You have a tendency to overestimate the importance of your ideas, and may be unreceptive to the views of others. Generally, however, you maintain a fine perspective on the important issues. You are an excellent adviser.

PERSONAL - LIFE PATH: The counsellor

You are a larger than life character with strong views on most issues, and a deep interest in spiritual issues. You are open and willing to expand your philosophical horizons. Generally blessed with good fortune and an optimistic frame of mind, you have the ability to expect the best of the future. There may be a tendency to overindulge or be too extravagant. People value your ability to understand in depth the things that move them.

### Venus In Libra

PROFESSIONAL - VALUES: Taste and diplomacy

You have a strong perception of balance around you and are extremely good at evaluating projects. You also have a remarkable talent for dealing with people, being able to meet them on their own level. A job that requires diplomatic talents might suit you - for example dealing with personnel. You work best in interesting social environments in which you can apply your excellent judgement. You have a pronounced aesthetic sensitivity, which can be expressed as a love of culture, art, music etc. You thrive in a position where you can express your taste and enrich human relationships, but you do not function well in positions which require you to be harsh to others. Even though you can be quite ambitious and dynamic, you do not like to jeopardise friendly relationships.

PERSONAL - VALUES: Taste and diplomacy

Love relationships are extremely important for you, and you will seldom be without a partner. You are excellent at reading your partner's needs, and quite willing to compromise on most issues, with the exception of clothes and interior decoration! You abhor bad taste and an unrefined manner, and are

attracted to good-looking people, with cultural sensitivity and refinement. The man with this position will be attracted to graceful women, with good taste and a very feminine manner. Women will emanate an air of refinement and style, and desire a partner who treats her as an equal while maintaining his masculinity. For both sexes partnership is a holy principle and central to the enjoyment of life. You cannot tolerate a partnership without the magic of romance. It is important for you that your partner shares your taste, and that you can talk together about matters of personal judgement.

### Venus In 1st House

**PROFESSIONAL - VALUES:** Create a harmonious environment. You have a soft approach to life, and your very presence is enough to spread an atmosphere of harmony around you. You are well-versed socially. Professionally this gives you the ability to work with people - especially in situations where personal charm is of the essence - and there may also be considerable aesthetic talent. Your appearance may well be one of your best assets, though your diplomatic talents and natural sense of justice can also bring professional advantages. Whatever you choose to do, you are guided by a strong sense of personal values and a need for economic security. Having a natural instinct for discerning worth, you have a talent for investment, buying and selling. In questions of taste you have a refined judgement.

**PERSONAL - VALUES:** Create a harmonious environment. Your personal appearance is important to you, and you will strive to balance inner harmony with an outer pleasing nature. Some people may feel that you are a little manipulative with your ability to smooth ruffled feathers and turn on the charm, but giving people pleasure is an important drive you possess. In turn it is essential for you to feel valued and liked by others. There will be many ups and downs in your romantic life, as relationships are the litmus paper through which you measure your progress. You are keenly aware of what other people think of you, and your vanity is easily bruised. It is hard for you to take it when other people do not like you, and you often compensate by being over-sweet. To be happy you really need to develop the capacity to love yourself.

## Identity

### Sun In Libra

**PROFESSIONAL - IDENTITY:** Create balance. It is in the complex inter-reaction with others that you learn to develop a sense of self. You can be an expert in social relationships, and skilled in initiating social contact. You are powerfully motivated by a natural sense of aesthetics, justice and harmony, and in your dealings with other people you are skilled at the art of diplomacy. You dislike taking sides and have the ability to see things from several different points of view. To others you may appear to be indecisive; but actually you need time to consider all the issues. Your natural talent to put yourself in other people's shoes can mean that you play down your own needs. By cultivating an inner firmness which gives you the courage to take on a confrontation when necessary, you will be able to make the most of your ability to relate harmoniously to others.

**PERSONAL - IDENTITY:** Create balance. The major formative experiences in your life are connected with relationships. In these key periods changes connected with your intimate bonds to another will lead to a revaluation of who you are and what your role is in life. You learn at these times that being true to yourself means not always compromising your needs for the sake of a relationship. Indeed this kind of compromise often involves an element of manipulation - if only

through your natural charm. Nevertheless, you feel a sense of self most strongly when in a harmonious relationship and it is here that your talents lie. Your appreciation of beauty and your good taste brings an atmosphere of peace. You show a natural concern for others, but you demand that this concern goes both ways - you cannot accept a relationship, if the romance has gone out of it, and you are skilled at recreating conditions for love.

### Sun In 1st House

**PROFESSIONAL - IDENTITY:** Actualise your self. You make a strong and very personal impact on your surroundings, and you have a keen awareness of the impression you create. This personal charisma can be used to your advantage professionally through your ability to attract a following. Your natural leadership abilities, personal power and charm ensure that you are the focus of attention when you tread onto the stage. You have considerable creative drive, and generally speaking it is important for you to feel that you can realise yourself and your ideals in your work. A high-profile job would suit you, in which you get what you want by force of personality. Though generous to others, you have difficulty seeing their point of view and tend to overwhelm them with yours.

**PERSONAL - IDENTITY:** Actualise your self. You tend to see life as a drama where the spotlight is on you. Some people may feel that you are self-centred in this respect, but it is part of your mission in life to realise yourself and your creative abilities. Everything you do in life is done with a powerful self-awareness, and this can be both a blessing and a curse. Aware of the impact you have on your surroundings, you feel that you are on stage all the time, and that much is demanded of you. You may wish to tone down the intensity of your presence, as you do have a tendency to steal the limelight...but you can be fun to be with. You can sparkle and energise other people. And you have genuine good intentions and a natural generosity, which, though sometimes rather overwhelming, can be of benefit to others.

### Sun Conjunction Venus

This aspect is of medium strength and its influence will often be felt, though not acutely.

Two energies are unified into one in this planetary aspect, and you will express this energy in a very personal way, for good or ill depending on other factors in your chart.

**PROFESSIONAL - IDENTITY:** Style. This contact evokes in you a very strong aesthetic awareness and quite considerable personal charm. You have the ability to make a warm and enriching contact to others and inspire them with your presence. Your diplomatic talents, and strong sense of personal values, gives you many advantages in a variety of areas. You are not a forceful person, and in general you do not like competition, but you can get your way through persuasiveness and charm. Your natural charisma and winning manner ensures personal popularity. You would not be happy in a job in which confrontation and conflict plays a role, and your talents are best utilised dealing with personnel, diplomacy, or matters related to taste, style or a refined judgement.

**PERSONAL - IDENTITY:** Style. It is extremely important for you to feel liked, and you go to considerable lengths to make a good impression. You are personally warm and affectionate, and enjoy both making and being the recipient of romantic gestures. Your mild manner probably comes from your father, who may well have been very loving and considerate. Indeed, women with this aspect often idealise their fathers and have difficulty shaking off their attachment. Later in life they will tend to become romantically

# Emotions

involved with a softer type of man, in whom they imagine very gallant properties. For both sexes problems can arise through denial of the shadow side of the personality and the reluctance to see that people cannot always be ladies and gentlemen. Sometimes too, there may be a tendency to manipulate others through the conscious use of charm, and a far too rosy self-portrayal. Nevertheless personal self-esteem is a central issue for the identity, and learning to love and accept yourself is a prerequisite before you can function well in a relationship.

## Sun Semisquare Mars

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

You can expect this influence to be hidden and sporadic in its effect - which is negative, especially as concerned social issues, and issues of self-worth.

**PROFESSIONAL - IDENTITY:** Competition

You are an extremely dynamic person with an excellent sense of when to grasp opportunities. You thrive on competition and love a good fight. You are no diplomat, but in situations which require courage and decision, you are the right person. Women with this aspect may early in life experience many conflicts with dominating or aggressive men, but ultimately these problems are solved by learning to be more self-assertive in a confident manner. You are suited to a job which provides you with a challenge. You have a pioneering spirit and are willing to take on the necessary confrontations to get ahead. You get bored easily, and when you get bored, you can get into trouble. When you encounter an obstacle you tend to bang your head against it until it gives way. It would pay for you to plan more before you act, and strive to be less impulsive. If you find yourself getting into unnecessary conflicts, try to cultivate a spirit of compromise. Winning is a little too important for your ego.

**PERSONAL - IDENTITY:** Competition

You are the kind of person who likes action, excitement and adventure. Being easily bored you tend to be rather provocative. Women with this aspect may have had a young or immature father, and in the more extreme cases there may even have been physical violence in childhood. Alternatively the woman with this aspect will have had a "buddy" relationship to the father and become involved with masculine pursuits. Later in life there will be a tendency to be attracted to a very masculine type of man. It may be important for the woman to really respect and look up to the man - but there is often an attraction to rather immature males, who never quite got out of adolescence. Subsequently the man may have great difficulty living up to masculine archetypes which basically exist within the woman's character, and this will lead to conflicts or battles of power, until the woman accepts a more personally assertive role.

Men with this aspect are very concerned about their masculinity and take pride in their ability to compete in the world. Sexual performance and the ability to take on a classic male role in relation to a woman are essential elements in the character. This Tarzan syndrome has its drawbacks. Problems can arise because of lack of sensitivity to the emotional needs of the woman. The man's over-identification with the male role can be perceived as faintly comical by the woman who would probably set greater store by demonstrations of tenderness and affection. The woman tends to be the prize which the man wins and later guards and protects.

## Moon In Leo

**PROFESSIONAL - EMOTIONS:** Create warmth around you. Other things being equal, you have a strong self-esteem, and this will be expressed in a warm and natural way in your emotional dealings with others. On the other hand you have a very sensitive pride indeed, and you can easily feel offended if you think you are being ignored and treated badly. So on the one hand you can be amusing and charming, and on the other rather proud and demanding. In business, pride comes before a fall, so avoid confrontations based on displays of dignity. In professional and social matters you will often be the centre of attention and your playfulness creates an uplifting atmosphere. You have a talent for creative ventures in which you can express your identity.

**PERSONAL - EMOTIONS:** Create warmth around you

You have been brought up to feel that you are worthy of respect and you are strongly motivated to live up to high parental expectations. Your winning manners and romantic nature can lead to fairly dramatic experiences in love. Dealing with the consequences of romantic involvements will be very formative for you. You have considerable charm and expect a good deal of attention, but on the path to emotional maturity your identity will often be bruised, as you learn how energy-consuming it can be to win the admiration of others. You are a creative person, you like to live the good life, and you expect to have an impact on others. Children can come to mean a great deal for you, and give you the joy you are constantly striving for.

## Moon In 10th House

**PROFESSIONAL - EMOTIONS:** A caring career.

Your career will involve you deeply emotionally and to some extent can be a "home from home". You make important emotional bonds to people you work with, and may find yourself playing a significant public role because you are very sensitive to the public's interests. You may also have a talent for dealing with products of the land or with housing. Your mood is strongly affected by the many ups and downs that you experience professionally. This professional sensitivity is an advantage when you cater for the needs of society, nourishing people with your concern, but it could be wise to develop a certain emotional detachment, so that you feel less vulnerable. Your mother may play an important role in your career, and elder successful women will inspire and support you.

**PERSONAL - EMOTIONS:** A caring career.

Your mother had a profound effect on your personal development and you probably still look up to her, or see her often. She was most likely the dominant parent and will have influenced you strongly in your choice of career. A lot of your unconscious professional motivation is aimed at living up to her expectations. Later in your life partners will find themselves competing with either your job or your mother for your attention or your affection. But you have a strong sense of duty, and you may feel that your role is primarily to live up to family expectations. Having children really mobilises all your resources, and you will make a good parent, but true fulfilment will be found when you can manifest your caring energy beyond the limits of the family.

## Moon Square Mercury

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

In your chart there is disharmony between these two planetary influences, and this will be reflected by many struggles both within your mind, and out in the world.

**PROFESSIONAL - EMOTIONS:** Emotional awareness  
You have great persuasive talents because you make an emotional investment in everything you say. At its best you can use these communicative talents to sway the feelings of the people around you - obviously a great asset when speaking to a public. You know how to tune in to the mood of the crowd and have an instinctive talent for saying the right thing. You need to be passionately engaged in your work, and function best in a role which gives you human contact. You work better with people than with things, but there is good business talent, especially as regards property. You are not an analytical type, and your judgements are easily swayed by your feelings. Thus you are easy to read, and will often stumble verbally, when you encounter conflict. You would find success in a career in which you utilised your talent for listening and speaking to people.

**PERSONAL - EMOTIONS:** Emotional awareness  
You are a person who likes to communicate on an intimate level with those you are close to, though you have difficulty opening up to those you do not know well. Other people are comfortable entrusting their thoughts and feelings to you however. Your word and tone of voice are always tinged by your emotions, and this ensures you a good audience. Your emotions tend to swing a lot, and when you are feeling negative it can be very difficult for you to express yourself clearly. Under extreme emotional conditions you will be rather irrational. You have probably been profoundly emotionally affected by sibling relationships, and even now may have a powerful emotional bond to a brother or a sister. Your school years will also have had a great emotional impact on you, for better or worse. You are extremely sensitive to being criticised or misunderstood on a mental level. In many ways you are able to build a mental bridge between the conscious and unconscious mind, clarifying emotions through mental awareness.

### **Moon Sextile Venus**

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy. When reading the following text, please bear in mind that you will for the most part experience only the positive effects of this aspect. You are particularly stimulated to learn and communicate, as regards the matters concerned.

**PROFESSIONAL - EMOTIONS:** Empathy  
You have very winning ways with all kinds of people and can gain a great deal of personal popularity. Dealing with others - particularly the public - in some way or another, can be an important ingredient in your profession. You may simply like people; at least people feel as if you do. You have a particular talent for dealing with women, partly because you have an instinctive understanding of their ways. Women can play an important role in your professional advancement - indeed you may be rather dependent on their goodwill for better or worse. Basically you are a caring and sympathetic person - and you show it. Therefore you would function well in a position which gave you daily contact with people and the opportunity to support and nurture them in some way. You shun hard professional tactics and are easily hurt when rebuffed. This means that you may be too fragile to handle the rough and tumble of the marketplace. To feel secure you need to have a solid economy, otherwise you tend to be afflicted by worry. You have a talent for investment - particularly in property.

**PERSONAL - EMOTIONS:** Empathy  
You have an affectionate nature - you have both the capacity to give succour and love, and a deep need to receive it. Obviously therefore, relationships are extremely important to you, and you tend to form lasting bonds at an early age. Actually the greatest bond will be to your own family, particularly the mother - for better or for worse. Men with this aspect tend to marry early and unconsciously compare their loved one with the mother. There

is a tendency to slink back to the family home for a good meal from time to time, and the wife can have great difficulty asserting her own authority over the mother's. In more extreme cases the man evokes maternal behaviour in his partner, and finds her wanting sexually as a mistress. It is difficult to feel sexually attracted to a mother figure, so unfaithfulness can ensue, as the man seeks to fulfil his sexual needs elsewhere. Women with this aspect have to learn to integrate the two feminine functions - maternal and erotic - into their lives in some way. If she has difficulty with this she will find the sexual element in the relationship deteriorating, and will end up spending all her time on the house or with the children. A maid might be the answer!

For both sexes there is a tendency to be overattached and clinging, and too fixated on material security. Unconscious and unresolved childhood needs for love and security spill over into later relationships. It pays to develop a more detached attitude and a greater indifference to the need for constant approval.

### **Moon Conjunction Jupiter**

This aspect is of medium strength and its influence will often be felt, though not acutely.

Two energies are unified into one in this planetary aspect, and you will express this energy in a very personal way, for good or ill depending on other factors in your chart.

**PROFESSIONAL - EMOTIONS:** Horizons  
You would thrive in a profession which offered you the opportunity to travel and explore different cultures. You could easily work or settle in a foreign country. Being restless in spirit, you get rather bored in a job which does not have an element of exploration - culturally, intellectually or geographically. You are essentially a very curious person, and the pursuit of knowledge is food for your soul. You can also be very caring, and your generous disposition can give you a talent for working with the public, especially as regards public opinion, marketing, or broadcasting values of some sort or another. Children would be especially benefited by your attention, and you have both the humour and educational drive to be a good teacher. You are not the kind of person to stay in any one job for a great length of time, unless it offers opportunities for growth and expansion.

**PERSONAL - EMOTIONS:** Horizons  
Foreign environments may have played an important role in your upbringing, and generally speaking you will enjoy the cultural stimulation of travel and new horizons. You have very strong empathy, and your emotional life exerts a powerful influence on your environment. You feel things very strongly, especially as regards what is right and what is wrong. You react powerfully to perceived injustice, and instinctively flare up or get upset when you think something is unfair. Above all, you dislike restrictions on your personal freedom, and you can manifest a strong independence if you feel encroached upon. You may often overreact to quite normal expectations on the part of the partner, as regards commitment and responsibility. Generally however, your optimistic and light-hearted nature brings a lot of joy and happiness to personal relationships, just as long as you are allowed to feel free, travel and pursue your intellectual interests.

**EMOTIONS - EMOTIONS:** Horizons  
Your mother had a strong influence on your personal convictions about life for better or worse. Perhaps she was religious or moralising, with extremely dominating opinions about what was best for you and the world. On the other hand she may have had an extremely beneficial effect on you - widening your horizons, stimulating you intellectually, and providing you with a strong moral foundation. Your mother was probably not the type to let herself be restricted by relationships, and she will have inspired in you the desire to expand your horizons and see the world.

---

Because of these childhood influences, freedom to pursue your dreams and visions is important for you. You have strong convictions about your personal rights, but these may not be realistic when you decide to commit yourself to a relationship. You often get into emotional arguments on matters of principle when you feel you are being treated unjustly, but perhaps you need to overcome a certain emotional irresponsibility. It is essential for you to re-examine and adjust your moral convictions.

## **Moon Sesquisquare Saturn**

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

The influence of this aspect is deeply unconscious and sporadic, though when felt it can manifest itself in uncompromising conflict with others.

**PROFESSIONAL - EMOTIONS: Self-sufficiency**

You are a very responsible and dutiful person who is very motivated to live up to your commitments to society. You can work well in a role which requires hard work and a lot of responsibility, especially if this entails formal relations with the public in some way. You can function effectively as a buffer between the public and the authorities. You may have a special talent for working with old people, or with people who have emotional problems or very difficult life circumstances. You have a measured response to the people you meet and can evoke considerable respect from others, just as long as you do not allow yourself to be crippled by shyness. You can perform monotonous tasks patiently, and are good at systematising things and creating order. Professionally you are strongly motivated by job security and continuity at work. You are not very flexible, and tend to stick to long-term habits and work-patterns. On the other hand you are reliable and conscientious.

**PERSONAL - EMOTIONS: Self-sufficiency**

You are extremely sensitive emotionally, but present a very solid facade to the outer world, giving the impression that you are quite cool, even invulnerable. Behind your formal manners is a person who was never fully allowed to enjoy a carefree childhood. At an early age you took responsibility in the family, repressing your own spontaneity and lowering your expectations because of emotional hurt. In later relationships you have difficulty letting down your protective barriers, even though you have a deep desire for intimacy. If you do get hurt emotionally you rarely let on, and you close the shutters on your feelings so that your loved one has no chance to make amends. After the age of 30 you learn more successful strategies for intimacy. First of all it is essential for you to be emotionally self-sufficient - if you sell yourself for security, you will end up in a prison. From a position of inner strength you can then allow yourself to be more trusting and vulnerable - you have nothing to lose and everything to gain by opening up emotionally without making any demands.

**EMOTIONS - EMOTIONS: Self-sufficiency**

Your childhood was probably rather difficult. You may well have felt rejected by your mother, perhaps because she worked too hard and had no time for you, perhaps because she had problems of her own, perhaps because she was blocked emotionally. Whatever the cause you have reacted to rejection by withdrawing behind a protective barrier so that you can't be hurt. Moreover you may also have a tendency to try to win love and acceptance by doing duties taking on family responsibilities. Emotional responsibilities founded on guilt are not wise, particularly if they carry on into middle age. The situation is perhaps more complex than you imagine. You were born with a strong emotional hunger and need for security, and it is possible that your mother could not fulfil your demands. You may have interpreted her reactions as rejection,

and in turn rejected her when she wanted to be warm. Whether this is true or not, you are very difficult to approach now when you are hurt, and you have the emotional resilience and determination to withdraw emotionally for quite long periods of time. However, as time goes by experience will teach you the importance of cultivating an open emotional attitude - it is much less painful in the long run. Ultimately you can be of great assistance to other people who have emotional problems, and you can be quite unselfish in giving time and assistance.

## **Moon Semisquare Uranus**

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

The influence of this planetary connection is subtle and unconscious. You can however expect quite acute periodic crises when the negative effects of the aspect manifest themselves.

**PROFESSIONAL - EMOTIONS: Unpredictability**

You are something of a gipsy, and this means you can adjust to extremely unusual professional environments. You would thrive in a job in a foreign country for example - the more exotic the better. You are well-suited to working with people who are alienated from society in some way, especially if they come from a different culture. On the other hand you function very badly in a conventional place of work, where the same functions have to be performed day in, day out. You have a very low threshold for boredom, so you are suited to a job which brings exciting changes and variation during the course of the day - preferably meeting people. You have an advanced intuition and very sensitive antenna - this may give you some talents in the New Age sphere.

**PERSONAL - EMOTIONS: Unpredictability**

You do not have conventional desires as far as domestic harmony is concerned. In your childhood there were many unsettling influences and a general atmosphere of unpredictability, excitement or stress. You need to feel that something is happening around you. This means that you can get very restless in relationships, and if you feel bored - and you often do - then you start getting provocative. You are best suited to relationships which keep you occupied with new daily challenges - and you have a strong need to express your emotional energy in group scenarios. Your partner will not be able to satisfy your need for stimulation on his or her own. You thrive in unusual domestic relationships - for example communal living, flat-sharing or residence abroad. For partnership to function satisfactorily it is essential that you stop distancing yourself emotionally - this gives the impression that you do not care for your loved one.

**EMOTIONS - EMOTIONS: Unpredictability**

Extraordinary circumstances regarding your relationship to your family - particularly your mother - and your general upbringing, have evoked a very detached emotional attitude in you. In all probability your relationship to your mother was characterised by a sense of equality or of friendship, rather than traditional patterns of dependence. From one point of view you were never allowed to feel a natural dependence and you protected yourself by developing detachment, but from another point of view you rejected your mother whenever she tried to assume the traditional maternal role. There may also have been an element of unpredictability about your mother's behaviour - a situation in which you never quite knew what she was going to do next.

Later in life you display this inherited tendency to detach yourself when encountering emotional challenges. You send the unconscious message that you are quite prepared to leave if there is going to be too much trouble, and that you can handle your own freedom. Of course you can, but this means that you end up in half-relationships in which you are neither

---

living with, nor quite living without the partner. When you discover that your love of freedom and independence is partly a device to protect you from getting hurt emotionally, you learn to express feelings of commitment with greater warmth, and this in turn creates more security for the partner, who will reciprocate by showing greater commitment.

## **Moon Semisquare Pluto**

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart.

The semisquare aspect shows a difficult streak in your character, which may manifest as an unconscious stubbornness in the matters concerned.

**PROFESSIONAL - EMOTIONS:** Deep emotional involvement  
You are strongly motivated on an unconscious level by a need for security - a need which is very difficult to fulfil. However when you turn outwards and concern yourself with others, you will discover a special talent for helping other people find security. This may manifest as social consciousness. You also have a talent for dealing with people in crisis, possessing an inborn psychological ability to transform how people feel. You are suited to work which requires a deep personal involvement combined with a certain power and distance. You have the power to investigate deep emotional states in other people, and this can be connected with psychology or the occult.

**PERSONAL - EMOTIONS:** Deep emotional involvement  
You are a person who feels everything very deeply, although people who only know you superficially might not be aware of this. Your need to protect yourself emotionally comes from a number of disturbing childhood experiences which mean that you tend to play it cool in times of crisis. Problems arise in intimate relationships because you never let on how you really feel - if you had the courage to show your vulnerability, people would treat you better. You cling to emotional bonds with great intensity, yet in times of crisis you can suddenly amputate your feelings and become ice-cold. It is unwise to deal with crises by giving ultimata. It is essential to overcome these destructive defence mechanisms, if you want to enjoy warm relationships.

**EMOTIONS - EMOTIONS:** Deep emotional involvement  
You are profoundly marked by traumatic childhood experiences, in which you lost trust in family security. Your bond to your mother is at best complicated, and at worst non-existent. For some reason she was unable to nurture you - perhaps you were removed from her at some time, perhaps she was unable to breast-feed you, perhaps she was under such psychological pressure herself and did not have the resources to take care of you.  
Whatever the reason, you sought to protect yourself from the resulting vulnerability by amputating your emotional bonds so as not to feel pain. Effective though this may have been to ensure your emotional survival as a child, it becomes a deep and unconscious habit which sabotages emotional bonds later in life. It is particularly painful for other people to experience the icy atmosphere you create when you withdraw your feelings. Experiences later in life lead you to transform your drastic emotional survival tactics and in doing so accept greater responsibility for family problems. This transformation evokes a deep psychological understanding of others who also are tormented by extreme emotions.

# Mentality

## **Mercury In Scorpio**

**PROFESSIONAL - MERCURY:** Analysis  
Your perspicacious nature and investigative talents can be an advantage in many professional areas. You are a person who can be entrusted with a secret - your lips are sealed. You are also a person who can discover secrets, therefore there is a talent for research and investigation. Your need to pierce to the roots of an issue gives a predisposition for psychological or occult interests. There may also be a talent for working with computers. Your talent for seeing weaknesses in others can help you be of mental support to them if you share your insights. It is important for you to be more open in your dealings with others - otherwise people get the impression you are plotting something. People need to be reassured that your motives are pure.

**PERSONAL - MENTALITY:** Analysis  
You are a deep-thinking and silent type. Superficiality is anathema to you; when you say something, it normally strikes deep and is delivered with considerable intensity. Experiences early in life may have made you somewhat suspicious, inclining you to look for secret motives in others. This can be unnerving for those close to you. You often feel that communication can be achieved through eye-contact alone, and that the great truths are unspoken. Remember that people also use words to make contact, and that everything doesn't have to be deeply meaningful. Scientific studies show that 55% of all communication is through body language - a fact that you have been instinctively aware of most of your life, having observed the way people react under your gaze.

## **Mercury In 2nd House**

**PROFESSIONAL - MENTALITY:** Develop mental resources  
Your ability to communicate and inform, and perhaps a certain talent for wheeling and dealing, are great economic assets to you. You have an appreciation of the value of material things, desire to learn how money makes the world go round, and are quick to make contacts and reap financial benefits from them. You would thrive in a job in which your knowledge and handling of information, and your ability to build up a network of contacts are utilised. You may have a particular talent for the banking world as you are quick to assimilate news and information which is relevant for the constant changes in this area. You earn money through your intelligence, through teaching or through travel.

**PERSONAL - MENTALITY:** Develop mental resources  
You have strong convictions, which are often based on the solid truths of the market. You are rarely motivated to show interest in insights which cannot be converted to practical advantage. However major economic changes in your life can lead to reinvestment of your values in the resources of the mind, psychological interests etc. Financial complications can arise in connection with brothers, sisters and neighbours, and early experiences in these areas will already have proved formative as regards your values in life today. You tend to worry a lot about the material aspects of life, and are constantly coming up with new ideas about how to manage your economy.

## **Mercury Sextile Mars**

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.  
When reading the following description, please bear in mind

---

that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

**PROFESSIONAL - MENTALITY: Sharpness**

You have an extremely acute mind, and can generally come to a decision far faster than the average person. You are quick to take action and enjoy the pleasure of outsmarting your competitors. You enjoy the thrill of mental combat. However you often cut corners, and your methods can be questionable. Your brusque manner can evoke considerable hostility in your place of work, so if you find yourself constantly getting into arguments or finding people irritating, you can be quite sure it has something to do with your behaviour. Perhaps you have a tendency to barge in or interrupt conversations, perhaps you speak in too harsh a manner or do not listen enough to others. It pays to plan more patiently, and think twice before you make your opinion known. You would function well in jobs which require tough negotiations or an aggressive verbal style. You have plenty of energy too, and like to travel and meet people. You are a go-getter.

**PERSONAL - MENTALITY: Sharpness**

You get into too many arguments, and rarely consider the idea that you may be wrong. This truculent manner probably stems from conflicts in childhood with brothers, or perhaps your father. You worked out then that the best means of defence was offence. Yet troubles arise later in life because your frank and direct manner makes people feel that you are offensive. You don't always have to tell people what is on your mind. You hate to be bossed around or told what to do, so make an effort not to act in this way with others. Give them time to express themselves without interrupting, and resolve to stop criticism and arguments. Women with this aspect are often attracted to rather sharp men who may have questionable morals, or be rather argumentative types, although this is a projection mechanism based on inner conflicts. Men tend to retain adolescent qualities and act at times as if they know everything. For both sexes it is important to slow down, otherwise the nervous system can be adversely affected. When you channel your enormous energy into creative, fun projects, you can achieve a great deal.

## **Mercury Square Jupiter**

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances. As there is tension between these two planetary influences in your chart, it will be very difficult for you to achieve the promised beneficial results before the age of 30.

**PROFESSIONAL - MENTALITY: Disseminating information**

One of your great professional assets is your intellectual curiosity and interest in communication and information. You can be something of a perpetual student, accumulating knowledge and insight for a rainy day. These intellectual talents bring you success in fields which require study, writing, meeting people, travel and generally exchanging ideas. You have excellent teaching talents, because you both have the capacity to concentrate on details, and at the same time can draw wide-ranging conclusions. You can maintain an overall perspective, even when drowned in facts and figures. You can also be extremely persuasive, and this can give a talent for sales. People can come to you for advice and information. You are also suited to a position in an office, where you have access to phones and faxes, computers etc. You may be rather restless, so you need to work in a position in which you work with a whole spectrum of daily tasks, or in a situation in which you meet a variety of different people, perhaps whilst travelling around.

**PERSONAL - MENTALITY: Disseminating information**

Gaining intelligence is a strong motivating factor in your life. Attending courses and studies, learning languages, travelling and meeting people, are all important activities for you, because they give you the opportunity to train and expand your mind. A foreign language may play an important role in your life you certainly have the capacity to master more than one language. You can be witty and a mine of information. On the other hand you may feel a strong need to impose your ideas and opinions on others. You hate to be belittled mentally, and you may compensate for this by becoming argumentative, or by dutifully trying to enlighten people about what the truth is. It is better to fulfil this need in some job for which you get paid - rather than tire your partner with your constant need to explain and inform. It is wisest to give your opinion only when it is consciously sought by others.

**THE MIND - MENTALITY: Disseminating information**

Brothers or sisters may have played a powerful role in your mental development as a child. Perhaps you felt unintelligent in contrast to a sibling - or there may still linger in you a sense of injustice as regards how much attention a brother or sister received in contrast to yourself. Contact with teachers and other children at school will also have been very formative, inspiring you to do your utmost to compete mentally. Whatever the circumstances you do not like being ignored. There is a deep need to make your opinions heard, so you have a tendency now to be rather voluble. If you are not careful, your forceful opinions can have the opposite effect to what you desire. You need to be heard and understood, and you need to communicate your own perceptions about fairness and justice. However, unless you cultivate a sensitivity to mental response, you will never get the message across. Ask yourself: are you getting the results you want from your communication? Perhaps what you consider important, is not so important to others. Choose your audience carefully, and ensure that you get feedback.

## **Mercury Semisquare Uranus**

This aspect is of medium strength and its influence will often be felt, though not acutely.

The semisquare aspect shows a difficult streak in your character, which may manifest as an unconscious stubbornness in the matters concerned.

**PROFESSIONAL - MENTALITY: Inventiveness**

You have some mental qualities that border on genius. Being receptive to signals in the environment which go over the head of the average person, you know how to integrate radical new ideas into your work. You have the inventor spirit, and you are always willing to experiment with new methods. By developing your knowledge of the scientific functioning of the mind, you can be a driving force for renewal at work. You may be skilled at technical matters, computers or untraditional, even provocative subjects. It is important for you to learn to put your ideas across in a constructive manner however. You have a tendency to talk at cross purposes, without ensuring the other person is following you. Coupled with this you may also be impatient with people as they fumble with old concepts and ideas. You can be provocative, or go off at a tangent - and this may only serve to alienate you. Clarify your intentions when you communicate. You have a talent for exotic languages.

**PERSONAL - MENTALITY: Inventiveness**

Other things being equal you have a very quick mind, and you attract attention through your ability to give conversations a surprising turn. You are quickly bored by conventional waffling and you are prepared to say anything, repeat anything, to give conversation more interest. Although at times you can be very amusing, this tendency easily leads to confusion and misunderstandings in relationships. You break the flow of communication - a habit you learned in childhood - and this

---

leads to a rather stressful atmosphere in intimate relationships. You need to involve yourself with friends or groups which have similar interests to you, rather than expecting to get all the mental stimulation you desire from your partner. When you get bored in intimate relationships, you tend to say and do the opposite of what is expected, just to get results. You also tend to make provocative statements. This can be exasperating for the partner.

#### THE MIND - MENTALITY: Inventiveness

You experienced an unusual mental environment as a child. This may have been due to siblings who were different in some way, or living in a foreign environment, perhaps hearing another language spoken. There is also a strong possibility that you had difficulty being heard as a child. You may have been interrupted a lot before completing what you had to say, or you may have developed the habit of interrupting others as the only way your voice or ideas could be heard. Perhaps in school there were special learning problems.

The result of these experiences is that your mind has developed in an unusual direction. You are both more open to the unconventional, the provocative, the surprising, yet you may feel misunderstood by people. You will often alienate people through interrupting or being provocative, or simply coming with crazy ideas which are neither here nor there. Many of these communication techniques have been developed to get attention - but is this the kind of attention you want? You also have a tendency to live too much in your head. Get into your body and down to earth. When you use your inventive or intuitive talents on a practical level, you can serve as a fountain of inspiration for others.

### Mercury Semisquare Pluto

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life. You can expect this influence to be hidden and sporadic in its effect - which is negative, especially as concerned social issues, and issues of self-worth.

PROFESSIONAL - MENTALITY: From secrecy to openness  
You have an investigative mind and considerable talent for finding out about hidden issues and analysing things in depth. You are also good at keeping secrets. As such you are a natural detective and are able to find the root cause of problems. This is a useful talent in psychological matters, when working with computers or anything requiring fanatical attention to detail. There is an ability to tap hidden sources of information. In your professional life, however, you are inclined to be suspicious, fearing that important information is being kept from you. People can feel that you interrogate them, and they tend to clam up. Sometimes you express yourself far too forcefully and do not allow people to come with their views. Success comes when you overcome communication problems connected with anxiety.

PERSONAL - MENTALITY: From secrecy to openness  
You are a rather secretive person; you think hard and deeply, and sometimes you are plagued by compulsive ideas and fears. Much of this is a result of childhood anxiety connected with lies, secrets or lack of communication. Because you do not always let on what you are thinking, you can easily be misunderstood. Put people's minds at rest by clearing up these misunderstandings and strive to be as open as circumstances permit. When your feelings are hurt you can be silent for long periods. And when you are insecure, you tend to be suspicious of your partner. Harmony in relationships comes when you resist the tendency to argue for hours at a time, or to use silence as a weapon, and instead learn to be open and trusting.

THE MIND - MENTALITY: From secrecy to openness  
As a child you were deeply affected by secretive behaviour on

the part of parents or siblings. You had a strong intuition that important facts were kept secret from you - you may indeed have been lied to in connected with some profound truth. Later in life you may well have discovered the details of what has been kept from you - this can for example have something to do with secret connections your parents had - for example half-brothers or sisters you never knew about. There is a strong possibility that a family member was extremely non-communicative or silent in a rather disturbing manner. Perhaps you too felt that it was difficult to make your voice heard. Whatever the actual circumstances, the result of this is a gnawing doubt concerning the truth of what you hear, so that you are often driven to deeply question the motives or actions of others. Sometimes your tendency to cross-examine will drive a partner behind a protective wall of silence for long periods of time; sometimes you too will clam up as a way of applying pressure in a relationship.

As you overcome these difficulties you learn to relax more in communication matters. By giving people the time and space to respond to your questions without anxiety, and by allowing people to have their secrets if they so wish, you can attain peace of mind. Ultimately your life will be enriched by the discovery of quite unique mental abilities on a deep psychological level.

### Mercury Trine MC

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy. Please bear in mind that the contact between these planets is harmonious, which means that you will rarely be troubled by their negative influences. They represent a resource you can draw from.

PROFESSIONAL - GOALS: The ideas person  
It is important for you to integrate your mental faculties in your career. Teaching, dealing with communication, writing, meeting people and generally creating contacts are all part of the employment spectrum for you. An inner restlessness will ensure that you either seek a career with a variety of interesting functions, or change jobs at regular intervals. The important thing for you is to get your ideas across in society.

PERSONAL - GOALS: The ideas person  
You like to have your finger in a number of pies, and although this can be manifested as versatility, you have a tendency to be easily distracted from your personal goals. Changes of views and a restless nature may mean that you move often. A stimulating atmosphere - both at home and in your work - is a prerequisite for personal satisfaction. Children, chatting and play can keep you happy all day.

## Venus Sextile Jupiter

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

### PROFESSIONAL - VALUES: Fortune

You have excellent aesthetic judgement, and strong personal values and convictions. You are suited to any profession which can make use of your ability to evaluate and compare - especially if this is connected to cultural or artistic projects. You also have a great ability to impress others with your charm and insight. You would be wasted in a job which did not allow you the opportunity to meet and influence people. You can deal with cultural issues or artistic objects, you can travel in your career, you have diplomatic talent, you have a great sense of style. Success often comes easily for you, and you may thrive in the company of women, and have their professional support. Normally you are lucky, and a great deal of money can flow through your hands. How fast it flows is another question altogether. Your warm personality and optimistic view of the future are your greatest assets.

### PERSONAL - VALUES: Fortune

You are an extremely loving and romantic person, and this brings both benefits and problems. Often you fall in love with love, and have difficulty settling into stable relationships because of your hunger for romance and emotional stimulation. You are however a great lover, and your attention makes your loved one blossom. There is a tendency to be attracted to a person who comes from a different culture or country - perhaps this is because of a need to widen your emotional horizons. There is a tendency to marry upwards in society. The most important value for you in a relationship is intellectual or cultural stimulation. You need to be able to respect your partner for his or her intelligence. A woman with this aspect has a great need for attention and appreciation, and particularly values the mental stimulation the partner can give. A man with this aspect has a great appetite for the opposite sex, and whilst intelligence is important, there is often a taste for exotic or good-looking women. Faithfulness may not be a strong point, though sooner or later there will be a tendency to tighten up moral values regarding love.

### LOVE - VALUES: Fortune

The issue of love or romance plays a dominant role in your life. Early intimacy with a sister, or a strong awareness of your parent's love relationship may be the foundation on which you build romantic expectations. Perhaps your mother was the romantic type, widely travelled or with pronounced cultural or artistic interests. If so, she may have expressed exaggerated views connected with love and relationships, inspiring in you a longing to indulge a cornucopia of romantic desires. Whatever these early influences were, you may find later relationship experiences not quite living up to your inflated expectations. It is important to be realistic, as romance and glamour last only a short time. Intellectual growth and mutual stimulation through shared interests or travel can however bring lasting pleasures. You can bring tremendous warmth and passion to a relationship, and you are probably a very giving person - but it would be wise to remember that your partner probably does not have this same capacity to express love. Spiritual or religious values may play an important role later in your life.

## Venus Semisquare Neptune

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

The influence of this planetary connection is subtle and unconscious. You can however expect quite acute periodic crises when the negative effects of the aspect manifest themselves.

### PROFESSIONAL - VALUES: Acceptance

You have an extraordinarily refined aesthetic sense.

Disharmony evokes an almost physical unease in you, so you are strongly motivated to recreate balance in your inner and outer world. Professionally this can manifest in a career where matters of taste are important, or diplomatic talents necessary. You are especially suited to public relations matters, but your genuine compassion for other people may incline you to work helping others in some way. Although you may be strongly inspired by items of physical beauty, you will rarely be satisfied by material well-being alone. You have musical and artistic talents.

### PERSONAL - VALUES: Acceptance

You are willing to make sacrifices for love, and as an incurable romantic you are skilled at creating circumstances for personal disappointment, either through poor judgement regarding potential partners, or unrealistic expectations. You are looking for more than a worldly love - you need to feel as if your soul is touched by your partner, you need to feel a spiritual bond. To be happy in this area of your life you must understand and accept so-called imperfections in others. The perfect partner does not exist and you will never find him or her. It is important to choose an equal - not someone you idealise or want to save and it is important that the chosen one shares ideals and dreams which transcend conventional relationship needs. Unhappiness and dissatisfaction in love is actually the result of unconscious impressions from your distant past, and these feelings actually have a spiritual purpose now.

### LOVE - VALUES: Acceptance

You have the capacity to develop a deep spirituality and compassion of an almost religious nature. Worldly relationships will never fulfil all your needs, though spiritual or creative practice might. You tend to start love relationships with tremendous dreams and ideals, yet after a few months you will often feel let down by the partner. Actually the partner - not wishing to disappoint you - tries to live up to your ideals in the first stage of the relationship, but reverts in time to his or her true nature. Men with this influence will often give the female partner the impression that she is imperfect in some way and this can lead to her losing self-confidence and ultimately become very unhappy. Both sexes tend to imagine that the ideal relationship is just around the corner, or idealise an old relationship which never became actualised....all the better to dream about.

If you examine your past carefully you will find that this pattern of unrealistic expectations arises from childhood experiences. One of the parents - most probably the mother (and possibly a sister) - will have expressed a deep dissatisfaction and longing for another kind of relationship than the one she had. This may well have been expressed non-verbally. The unconscious message to you was that the ideal relationship exists but is unattainable. Thus you are on the alert for flaws in your chosen partner - and miraculously they arise. This is a complex projection based on an unconscious disappointment programme. As awareness dawns about this, you learn to resolutely avoid false expectations, and see both your own weaknesses and those of others in a compassionate light.

---

## Venus Square MC

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart.

There will be great difficulty in integrating these two planetary influences, and the promised harmonious results will only arise after you have expended time and effort.

### PROFESSIONAL - GOALS: Manifest beauty

You have a talent for expressing your 'sthetic judgement and sense of beauty in your career. Your charming personality enables you to deal equally well with both people as material assets, and you achieve success through the goodwill of others. You hope that success will come to you the easy way, and if you are lucky it will. However you tend to wallow in sensory pleasures, and may be inclined to flaunt your material advantages through conspicuous consumption.

### PERSONAL - GOALS: Manifest beauty

You are motivated to maintain a comfortable life-style, and generally have a fine artistic judgement - both as regards how to maintain the home, and how to pursue your career with style. At worst you are inclined to a sumptuousness and conspicuous consumption which borders on bad taste, at best you know how to create a harmonious and peaceful environment.

## Drives

### Mars In Leo

#### PROFESSIONAL - DRIVES: Develop leadership qualities

You have a very strong sense of identity and are motivated by a desire to create a powerful impression. Recognition of your efforts is essential, and you will tend to measure your success by the prestige you achieve in other's eyes. Never being content with a back seat you seek personal challenges so that you can prove yourself. You are creative and function well when you are at the centre of attention - for example teaching children. You like to see yourself reflected in the work you do. There is a lot of pride, and the very idea of failure is unacceptable for you. This can mean that you stubbornly stick to the wrong course of action just to save face, or that you come into conflict because you have difficulty admitting you are wrong. When you overcome these weaknesses you can be an excellent leader as people will automatically look up to you.

#### PERSONAL - DRIVES: Develop leadership qualities

You are a warm-blooded person with charm and a forceful personality. You have a soft spot for children and considerable creative talent. You like to cultivate a romantic view of yourself, being both gallant and courageous. You are easily manipulated by flattery and appeals to your honour. Men with this position of Mars see themselves as great lovers, and they can launch wooing campaigns in which no expense is spared to sweep women off their feet. Women are attracted to men who have a certain position or prestige, or someone they can look up to in some way. Both sexes are romantic and possess a passionate nature. There is a tendency to get involved in heated love-affairs. There is also a taste for luxury and the good things in life. In long-term relationships, mutual respect is an important ingredient - if this is lost, love dies.

### Mars In 11th House

#### PROFESSIONAL - DRIVE: Solidarity

You are dynamically inspired by social causes and can find professional satisfaction working motivating groups in one way or another. You are a reformer by nature and are prepared to take on the necessary confrontation to get your ideas accepted. Your motivations as a reformer are not selfish; you are prepared to be in the vanguard working for collective interests.

You have very little respect for restrictive social norms and prefer to be direct in your dealings with people, therefore you function best when you are a spokesman of some sort, or when you carry the banner of a social or political movement. You may have very strong ideological principles, and you are prepared to fight for them.

#### PERSONAL - DRIVES: Social agitation

You are very interested and involved with your friends; fiercely loyal, you are prepared to fight shoulder-to-shoulder with your brothers and sisters for a common cause. However many troubles arise in your social circle - perhaps because you have a tendency to speak your mind to a provocative degree, perhaps because you are a bit of an outsider. Not one to take social niceties into consideration, you tend to stir up discontent in groups. You are also attracted to rough and ready people who you can trust for their honesty and directness. You have the ability to take on a dynamic role in a group, perhaps connected with sport or outgoing enterprises. Generally speaking you will thrive in the company of men. Women with this influence may often be sexually attracted to a friend; men may prefer to be with amongst other menfriends as they can feel too limited by intimate partnership.

### Mars Semisquare Sun

Please read page 4: "Sun Semisquare Mars"

### Mars Sextile Mercury

Please read page 8: "Mercury Sextile Mars"

### Mars Square Neptune

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

As there is tension between these two planetary influences in your chart, it will be very difficult for you to achieve the promised beneficial results before the age of 30.

#### PROFESSIONAL - DRIVE: Refine your desires

Learning to be motivated and being able to define what you really want to do is one of the greatest challenges for you. You have many talents, especially on the creative side, and these can express themselves in advertising and marketing, matters concerning body energies (for example healing and massage), and many other areas - including social care. Paradoxically you have high ideals, yet may get involved in ethically questionable ventures. You can be driven by a nagging dissatisfaction connected with the meaning of what you are doing, and you thrive best when you work creatively or for a cause which transcends material interests. Doing something you believe in is what motivates you. You have strong socialist impulses. There is an extraordinarily repetitive theme about being cheated which can affect your working conditions. You will experience on occasions that people go behind your back or over your head - seemingly without any explanation. This is connected with your perfectionism and a tendency to express dissatisfaction. People hide things from you partially to avoid experiencing your disappointment. If you analyse your own behaviour you will discover that you also have a tendency to hide things from others! By being honest and accepting apparent imperfections, you can avoid unpleasant repetition of these happenings. It is also important for you to speak your mind and take a confrontation when it arises, to clear the air.

#### PERSONAL - DRIVE: Refine your desires

There is no doubt that moral issues are a big challenge for you in your life. Early experiences may have inclined you to be wary of acting spontaneously and openly, and this can give rise to great misunderstandings and often deceit in relationships. Women with this aspect will often find themselves getting

attracted to men who disappoint them, perhaps through lying or being unfaithful, or through alcohol misuse. Men have problems regulating their material and sexual appetites.

Women are attracted to creative, artistic or spiritual men, who fulfil their inner need to also develop these qualities. Whilst falling for a sensitive man however, there is paradoxically a fear of weaknesses in the male. An exaggerated focus on these supposed weaknesses and a fear of being lied to by the man actually causes the man to conceal his true desires and needs. This can result - in extreme cases - in a double life. The man with this influence cannot find satisfaction in simple material and sexual gratification, no matter how hard he tries - and he tries hard. Happiness comes when both sexes learn that satisfaction is only to be found in creative or spiritual goals - partnership will not in itself provide it. Dissatisfaction has to be seen as a divine discontent which drives the person to higher achievements.

**SEX & POWER - DRIVE:** Refine your desires

This influence evokes a feeling of vulnerability and satisfaction in both the man and the woman. In childhood you will have been witness to weakness and despair in either the father or a brother. Your father will probably have initiated you into his fears and disappointments, you may have experienced him in tears, or drunk, or confessing sexual unhappiness. As a result you have developed a genuine concern, but at the same time you wish to avoid getting involved with anyone who exhibits similar failings. You are both repulsed by weakness, and attracted to it, because on the deepest level you know that it exists within you.

Women unconsciously project their fears in this respect on men, and every sign of weakness in the man will activate the anxiety connected with childhood. Everything becomes a test for the man - and he is doomed to fail. Often the woman will choose a man who has inherent flaws in his character, but even the man without so many flaws will start to exhibit them. At first, however, there is a tendency to over-idealise the man, refusing to see any weaknesses. As early romantic love fades, weaknesses become apparent, and there is a feeling that the man has changed character, although of course he has just reverted to being himself.

The battleground for men is in the fulfilment of desires. Often there is a weakness for alcohol or drugs and sexual escapades it is as if one is striving to be seduced by life. In the last analysis the test is a spiritual one - ultimately one learns how transient the fulfilment of desire is.

The desire for sexual gratification is powerful, yet in some ways unreachable. There is a strong tendency to be unfaithful, and this is connected with the unrequited dream for sexual satisfaction. Routine sex quickly results in boredom - there is a need for magic, romance, wine and the spirit of seduction.

Women will often experience male partners being unfaithful - in some cases with parallel relationships which continue secretly for many years. There is a subtle reason for this and it can be avoided. First of all there is a tendency to be very considerate on a sexual level, and this can result in having sex, when you do not really want it. This may mean regular sex without the erotic spark. The man will feel that he is not really satisfying the woman and will tend to seek sex elsewhere. The answer to this is of course only to have sex when you really want it, and to ensure the right seductive atmosphere. Erotic fantasies play an important role with this planetary influence, too, so it pays to share them. Unfaithfulness in this case starts with isolation during the actual sex act.

For the man, sexuality can be almost a plague - the search for the ultimate orgasm. Actually the whole point of this influence is to learn to refine sexual impulses. There can be great healing talents and unusual physical abilities - particularly as regards yoga, T'ai Chi, physiotherapy etc. - when this lesson is learned.

## Mars Sextile MC

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart.

The sextile aspect is favourable, and stimulates your capacity to learn from experience. You can expect the negative effects to be minimal.

**PROFESSIONAL - GOALS:** Warrior

You have the warrior mentality, and tend to go for your goals with irresistible energy and enthusiasm. You will be no stranger to conflict on your way to the top, and this is as much due to your own aggressive attitude as to the behaviour of your superiors. You function best when you are master of your own fate. You are suited to any field which requires courage, action and a pioneering attitude. You thrive on competition.

**PERSONAL - GOALS:** Warrior

Your upbringing was characterised by tension and struggle, and this has given rise to the conviction that you have to fight to get to the top of the heap. As such you are wilful and combative, and this will affect both your career and your domestic harmony or lack of it. At home it is better for you to channel your energy into activity rather than irritation. You are a busy person, and you will get on in life.

## Wisdom

### Jupiter In Leo

**PROFESSIONAL - WISDOM:** Have faith in yourself

The year of your birth brought powerful leadership issues to the fore, for good or ill. It was also a period when there was a strong focus on national entertainment, issues connected with children and education, the world of the elite, and matters of privilege. By tuning in to this influence you will discover the capacity to win respect and honour in a particular area of your life. With your winner mentality and burning faith in yourself, you simply attract success. Self-esteem is the key to achievement for you. By developing the capacity to visualise your future, and by consciously and vividly imagining the kind of circumstances you would like to experience, you can create the conditions for a prosperous future. Remember however that everyone is expendable - you tend to overdramatize your influence and effect, and to be unreceptive to the advice of others.

**PERSONAL - WISDOM:** Have faith in yourself

Making a favourable impression is very important for you, and you are good at it. When you channel this planetary influence you will radiate a natural confidence and charisma. You appreciate the luxuries of life and have a taste for quality items. You are a gambler by nature, and you believe in endless expansion. As you have a tendency to overestimate yourself it is important for you to cultivate the capacity to quit while the going is good. You are also concerned about gaining insight into your identity, and this may incline you towards self-development, though you hate to subordinate yourself to anyone else in this process. You have strong personal convictions, and your identity is very tied up with them, making it difficult for you to show flexibility or admit mistakes. You can have considerable influence on the ideas of those who surround you.

### Jupiter In 10th House

**PROFESSIONAL - WISDOM:** Believe in yourself.

Professional success should come naturally for you, and you may find yourself being helped on your way by influential people who are well-disposed towards you. Success will come in 12 year cycles of expansion and decline. Your ability to grasp

---

opportunities before other people, and a strong belief in your own abilities contribute towards personal success. You are a believer in the principles of growth and laissez-faire, and you know instinctively how important positive thinking is for the achievement of goals. Failures can occur when you rely too much on blind faith, and visions must be backed up by strategic planning. International connections may be an essential ingredient for success. Your personal convictions may have considerable social influence, and people may pay well for your professional advice. This is due to your long-term vision and perspective.

**PERSONAL - WISDOM:** Believe in yourself.

You were probably fortunate to have a parent who encouraged you strongly to reach out and attain your dreams in life. From this springs a natural confidence in your abilities to get ahead, and a general trust in the world. With success comes influence and a belief in the validity of your views on life. You have to take care not to be too dominating when broadcasting these views in your personal life. Your predisposition for achieving success means that you should be able to guarantee security in partnership matters, and bring the possibility of advancement and higher status to a relationship.

### **Jupiter Trine Saturn**

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

**PROFESSIONAL - WISDOM:** Cultural values

You have the capacity to attain a meaningful and powerful position in society. Having the ability to sense the right time, and be in the right place, you know how to take advantage of professional trends to create expansive conditions for professional growth. If all goes well you can consolidate your position after a period of expansion, and from this new foundation go on to create further growth. The main issue as regard success is the ability to have faith in the future and act on it. Periodically you may be overwhelmed by pessimism and lack of confidence. At these times the future can seem dark indeed. At other times you can be overoptimistic as regards future possibilities, and fail through lack of judgement or preparation. Courses which train your ability to plan, combined with training positive thinking, will greatly benefit you. You can work in central positions in organisations because you inspire the feeling of stability and trust. You may have a talent for planning, consultancy and organisation - and you have the capacity to create structures in society which bring lasting benefit.

**PERSONAL - WISDOM:** Cultural values

When this influence manifests positively you can create an environment around you full of confidence and certainty about the future. In difficult circumstances however, you can feel great despair as regards what the future will bring for you. This is especially strong in respect to your need to fulfil the expectations of society and those closest to you. Your moods tend to swing from optimism to pessimism. You are especially

concerned as to whether you have the necessary training or experience to realise your ambitions. Obviously you will benefit from training courses to increase your skills, but you still have to struggle with nagging doubts regarding your competence and intelligence. It is precisely this insecurity which leads to great personal development as you constantly strive to gain insight and understanding. You can have rather dominating opinions, and it is worth asking yourself whether they truly are your own opinions. You often allow your views to be swayed by parental convictions or current opinion. However you tend to mature like a good wine in this area, and your own ideas may end up having a major influence on your environment.

**COLLECTIVE - WISDOM:** Cultural values

Saturn and Jupiter are the giants of the solar system, each with their own systems of moons. As Saturn's orbit of the Sun takes nearly 30 years, and Jupiter's 12 years, they meet precisely every 20 years. This cycle is reflected by vast structural readjustments in society, inaugurating new periods of hope and growth. Every fifth American president is elected under this influence, the last two being Ronald Reagan, and John F. Kennedy.

The principle idea of this planetary aspect-cycle is initiating and building on new ideas and concepts about the future. As this influence can last up to a year, everyone born in this period will play a role in realising a future vision of structural growth in society, and some individuals will personalise the influence to become pillars of this new society. Ideas about banking and finance, building and construction, teaching and education, foreign and domestic policy, the rule of the law etc., will all be formulated, developed, run into trouble or bear fruit, during the different aspect phases. As Jupiter represents a new vision of the future, as well as justice and the law, whilst Saturn represents the executive, tradition and the structure of society, the interaction of these planets brings upheaval and adjustment on every level, as the past collides with the future.

### **Jupiter Trine Neptune**

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

Because there is a good aspect between these two planets, you can expect the positive consequences to be strong and very creative, and the negative consequences minimal.

**PROFESSIONAL - WISDOM:** Expansive dreams

As these planets are relatively slow-moving their influence is felt most on a collective level. Insofar as you channel their influence in your profession you will wish to work on the collective effect of knowledge, the intellect and social influence. There may be a talent for marketing or advertising or selling a dream or vision. There can also be a drive to evangelise on a social, religious or political level. You can be strongly motivated by altruistic ideals and identify with some kind of vision or dream that transcends your own dreams. On a more down to earth level there can be a talents for dealing with oil and related products - particularly plastics. There may also be an interest in oceans, the film industry and anything which enchants on a collective level. You can be hopelessly overoptimistic - heed realistic advice!

**PERSONAL - WISDOM:** Expansive dreams

This influence shows that you can be moved by dreams and visions. There will be some aspect of your life in which you are touched by something magic that completely transcends your everyday life. This can bring great happiness, if you choose to cultivate your intellectual drive towards greater spiritual understanding through creative, artistic or meditative interests. At the same time there may be a total lack of grounding, or a tendency to be completely absorbed by unrealistic ideas. There are dreamers of dreams who achieve nothing, and weavers of

---

dreams, who can bring visions down to earth. Ultimately people will be disappointed in you, if you are the former. You have the capacity to make faith and hope guiding lights for your actions.

**COLLECTIVE - WISDOM:** Expansive dreams

As Jupiter takes 12 years to go around the Sun and Neptune 165 years, the two planets meet in a conjunction cycle every 13 years. It is a time of spiritual progress. At this time humanity is gripped by great hopes concerned with an ideal future of some sort. People work to achieve Utopia - and though as a rule disillusion comes, there will be a period when people are joined in unselfish love for a shared ideal. This is a time when the bubble expands, when optimism exceeds all bounds, when the balloon rises to the greatest heights. Before everything comes down to earth again the human soul is enriched and touched by the divine. Intangible things become tangible in a magical way - there can be a special emphasis on music, art and the media.

## Jupiter Semisquare Pluto

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

The influence of this planetary connection is subtle and unconscious. You can however expect quite acute periodic crises when the negative effects of the aspect manifest themselves.

**PROFESSIONAL - WISDOM:** Transformation of beliefs

This influence is often felt more collectively than personally. This is a combination that shows power in one form or another: big money, the power of ideology, the law. You will have very strong convictions and a intense sense of justice, and as such will often find yourself getting involved in issues connected with beliefs, righteousness, power and the misuse of power - especially as far as large organisations are concerned. Success comes when you encourage tolerance in yourself, and flexibility concerning your views, thereby overcome a tendency to be unreceptive to the opinions of others. Systems of positive thinking can transform your life.

**PERSONAL - WISDOM:** Transformation of beliefs

Your beliefs will undergo a profound transformation during the course of your life. It is important for you to bear this in mind, as you often defend your convictions with an compulsive persuasiveness which can be dominating in personal relationships. You may be aware of an obsessive need to be right, or a consuming hunger to acquire insight, and this can be rather exhausting for those closely involved with you. By resisting the temptation to impose your beliefs on your partner, and by being open and curious about other people's opinions, you can attain harmony. You will certainly develop considerable psychological insight in your life, and this may benefit you both privately and professionally.

**COLLECTIVE - WISDOM:** Transformation of beliefs

Jupiter orbits the Sun every 12 years, whilst Pluto takes 246 years. Consequently Jupiter catches up with Pluto approximately every 13th year and. After 6« years, Jupiter is in opposition to Pluto, and every 3 years Jupiter is square Pluto. This planetary cycle is reflected in events which affect the world on a global scale. But if you have an aspect between these two planets in your birth horoscope, your personal efforts can be very significant in carrying out collective transformations. You will often experience major change at the conjunction, square and opposition - at these times you will discover what your destiny is in relation to this planetary cycle and society. This 13 year cycle show the ebb and flow of ideological and financial power. Mass changes of consciousness occur at the start of each new cycle inaugurating new collective beliefs. There will often be enormous ideological power battles in society. Jupiter/Pluto shows the disproportionate power exerted

by small secret groups, for good or ill.

## Jupiter Semisextile MC

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

You might expect the connection between these two planets to have a weak positive effect, though it is rather subtle in influence.

**PROFESSIONAL - GOALS:** Counsellor

Your foresight and understanding are important assets in your career. You can work in an advisory capacity, and may function well in areas concerned with publishing, travel, law or international affairs. Superiors tend to support you and ensure your promotion. Your chief weakness is a tendency to overestimate your own importance, and to foist your own views on colleagues. You need meaningful goals, and when you follow them you are destined for success.

**PERSONAL - GOALS:** Counsellor

Fortune smiles on you in family and professional matters. Your upbringing was probably quite enlightened, and many of the strong views and convictions you have stem from the example of your parents early in life. You want to achieve a position of importance in your community. You appreciate space around you in your home environment. You may have a tendency to be showy, and when it comes to property, this can be expensive.

## Challenges

### Saturn In Pisces Retrograde

Because this planet was retrograde when you were born, you have a special personal lesson to learn in the matters described. Experiences will be evaluated more on an inner than outer level.

**PROFESSIONAL - SELF-RELIANCE:** Transcendence of ambition

Saturn is to be found in this sign in the periods 1935-38, 1964-67 and 1993-96, and during these periods there was a profound awareness of social needs and a desire to improve the situation of the underprivileged. If you come to express this influence in your career, you will be motivated by a deep concern, and will find success in a job in which you could help those who cannot help themselves. If you can overcome inner blockages, you may also discover a creative talent. It can be difficult for you to reconcile the drive to achieve, which you see motivates others, with the awareness that many people never make it to the top. You are therefore not motivated by the allure of success, or if you think you are it will prove elusive. To achieve success in life it is important for you to overcome depressive tendencies and lack of faith in yourself, and replace negativity with a compassionate attitude. Success may involve an element of sacrifice.

**PERSONAL - SELF-RELIANCE:** Transcendence of ambition

The spirit of the time around the period of your birth was suffused with an awareness of social difficulties on a global scale. To some extent there will have been a rather unhappy atmosphere, and at the deepest layers of your being you will be able to sense an inner despair, or at least a need to make sense of your life in relation to society. You are more aware than most people of the futility of ambition and egocentric desire, and early disappointments will force you to redefine your personal goals so as to give your life meaning. Being happy for you means learning to accept that which you cannot change, and helping those whose needs are greater than yours. Your greatest challenge is to overcome negativity and a sense of being oppressed by the world, and to create the spiritual

foundations for a meaningful existence.

## Saturn In 6th House

**PROFESSIONAL - SELF-RELIANCE:** Overcoming burdens  
Work and duty play a very important role in your life - although things are never easy in this area. You may feel that you have to work too hard, or that your work does not fulfil you or is too monotonous. Indeed you may have great difficulties with employment in your youth. If you do not have the courage to go for what you dream of doing, you will end up in some inferior position obeying someone else's orders. You have a lot to learn as regards co-operation with others - and this is connected with a defensive attitude at work. You wish to be respected for what you do, but are often not receptive to the feedback - both positive and negative - co-workers give you. You get the hang of things after the age of 30. If you rise to the challenge of getting down to some formal training, you can become an expert in whatever field you choose. You function well in a role in which you have authority. You are after all a very hard-working person, and employers will appreciate your conscientious attitude. You work economically and are good at making enterprises more efficient. Although you tend to stay in a job for long periods, you will need to make adjustments at work about every 7 years, even though flexibility is not your strong point. If you cultivate an open attitude to the people you work with, and admit to your feelings of professional insecurity, you will be treated with more consideration.

**PERSONAL - SELF-RELIANCE:** Overcoming burdens  
You hate drudgery in your personal life, and often find yourself swamped by everyday tasks. As a child you may have had a lot of domestic responsibilities or family duties. Often you may feel you have to bear unfair burdens. Actually you learn a lot from working hard, because you train yourself to economise with your time and energy. This ability to be efficient will bring professional advantages later on. In relationships remember it is entirely up to you what tasks you do. You tend to automatically take on unnecessary work, because of habits picked up in your childhood as a result of strict parental expectations, and then complain that your partner does not bear his or her load. Be satisfied with things as they are, and plan your time so that you also can relax and enjoy. This will benefit your relationship. During the course of your life you will learn how important it is for your health - both mentally and emotionally - to cultivate a positive attitude to your everyday life.

## Saturn Opposition Uranus

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy. As these two planets are on opposite sides of your horoscope they indicate that you are split between two quite different drives. As a result you tend to imagine other people with the negative qualities described.

**PROFESSIONAL - SELF-RELIANCE:** Structural renewal  
This rare combination of planets is part of a 46-year cycle, and the influence will affect everyone over a period of approximately a year. In so far as you channel this influence through your career you have the capacity to deal with large organisations and will often find yourself in the position of establishing a bridge from the old to the new. With one foot in tradition and the established values of collective experience, you will also have to deal with the necessity of reform to adjust to a new future.

Depending on which side of this equation you are on, there can be conflict with established authorities. Thus you will often be confronted by two separate and very different camps with very different viewpoints. You deal with social structures which have outlived their usefulness; perhaps a revolution is necessary to make room for the future. You can be skilled at finding ways of putting new technology to practical use. You can work in areas concerned with social reform.

**PERSONAL - SELF-RELIANCE:** Structural renewal  
Your personal struggle is very much connected with when to release your attachment to the past and open yourself and your life to the necessity of change. Often you hang on to restrictive life-patterns too long, and when sudden change comes - as it invariably does - the edifice you have built up can disintegrate as you uncompromisingly embark on a completely new venture. You tread the tightrope between generations and have the capacity to bridge the gap between young and old. Sometimes you identify with the establishment, yet there will come decisive breaks as you violently strive to adjust to change. You have a role in society in which you should bear the banner of reform.

**COLLECTIVE - SELF-RELIANCE:** Structural renewal  
As Saturn takes a little under 30 years to orbit the Sun, and Uranus 84 years, these two planets meet in a conjunction cycle every 46 years. Saturn represents the forces of the past and the establishment, and Uranus the force of the future. Needless to say, this is an uncomfortable meeting which tends to bring violent upheaval in the world. In mythology, Saturn, who never was very keen on change, castrated Uranus. There was a conjunction in 1942 during World War II, and in 1988 which marked the beginning of the end for the Soviet Union and Eastern Europe. This combination shows the degree of integration of reform in society, and, depending on the kind of aspect, how peaceful this process is. Generally there is a strong polarisation between the old and the young at stressful phases on this cycle - for example during the opposition in 1965, when young people dropped out of established society. The aspect also marks milestones in the practical use of modern technology.

## Saturn Trine Neptune

This aspect is of medium strength and its influence will often be felt, though not acutely.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

**PROFESSIONAL - SELF-RELIANCE:** Dissolution of structure  
These two slow-moving planets form rare aspects as part of a 36-year conjunction cycle. Insofar as you express this influence in your professional life, you will be concerned with making dreams real, and bringing visions down to earth. This may be expressed politically, through concerned social work, or perhaps your career will be touched by some other form of contact with the pressing social issues that this aspect symbolises. This can mean dealing with suffering in one form or another, for example loneliness or poverty, old age, alcoholism etc. As regards your own ambitions, you will often feel that you are driven by a deep sense of professional dissatisfaction, and even the goals you attain may seem empty once they are achieved. True meaning is found in some form of service in which you sacrifice personal ambition for a universal cause.

**PERSONAL - SELF-RELIANCE:** Dissolution of structure  
Though this aspect is felt mostly on a collective level, there will be times in your life when you are struck by a deep sense of sadness or tragedy. In some peripheral area of your existence you will encounter deep suffering which will make a lasting impression on your attitude to life - particularly as regards the drive for personal achievement. This kind of experience may

tend to make you escapist in one form or another, or you may feel a strong drive to find personal meaning through work, service and sacrifice. During the course of your life you learn to find hope, when things seem most hopeless. You are very aware that personal status and material achievement give no lasting answers to human dissatisfaction; it is the inner, spiritual qualities in existence which count. If you have personal planets contacting this aspect, you will feel the influence very strongly.

**COLLECTIVE - SELF-RELIANCE:** Dissolution of structure As Saturn takes a little under 30 years to go around the Sun, and Neptune 165 years, they meet every 36 years. This conjunction cycle is experienced powerfully on a political level as the dissolution of government structures which have outlived their usefulness. This cycle is strongly related to socialism, and the last 3 conjunctions - in 1917, 1953, and 1989 - have seen major changes in Russia for example. If there are serious leaks, the ship of state sinks under this aspect. It evokes in the collective spirit the need to take concrete action to improve the situation of the underprivileged, thus much work will be done on hospitals and the social services at this time. The same combination also has to do with imprisonment, suffering and old age.

### **Saturn Opposition Pluto**

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart. You will have to work hard to attain the beneficial results of this aspect. Partnership matters are central for your gaining an understanding of the principles involved and integrating them in your nature.

**PROFESSIONAL - SELF-RELIANCE:** Re-evaluate personal power  
Normally this influence is felt more collectively than personally. The main issue here is the structure of power - its use and misuse. In your life you are sure to encounter people and organisations who have a powerful position in society, for good or ill. This can for example include the police, tax authorities, corporations or secret organisations. When this influence becomes strong in your life, you will find yourself in a position which requires enormous willpower. This can lead to the overthrow of powerful people, or the collapse and restructuring of powerful institutions. It is your mission to transform the unacceptable use of authority. You also have the capacity to wield power and in doing so reform organisations.

**PERSONAL - SELF-RELIANCE:** Re-evaluate personal power  
You can both be a victim of tyranny, and a person who unconsciously adopts an authoritarian style yourself. The energy you invested in survival early in your life can give you an imposing and even frightening aura. You have to make sure therefore that you use your natural authority to empower rather than weaken others. In intimate relationships you are extremely sensitive to the misuse of power and any sense of helplessness. If you unconsciously overreact in this area it may be you yourself who evokes fear in your partner. In times of crisis you may use the threat of allowing your life structure to disintegrate totally to keep your partner in line. Do not be afraid to be gentle and tender.

**COLLECTIVE - SELF-RELIANCE:** Re-evaluate personal power  
Saturn orbits the Sun every 29½ years, and Pluto takes 246 years. Therefore Saturn overtakes Pluto every 35 years. Politically this cycle often leads to the restructuring or the painful birth of nations. The conjunction took place in 1914, 1947 and 1982. The first two dates saw the beginning of World War 1, and then the birth of Israel, Pakistan, India (the fall of British colonial power), and, a little later, Communist China. 1982 was the beginning of the disintegration of Lebanon and the nuclear stand-off between USA and the Soviet Union in

Europe.

The key issues here are colossal power confrontation with ideologies strongly at variance. Politically there is no way around power battles. Old structures experience their death-throes as they outlive their usefulness. Organisations are stripped to their bare bones. Only by profound surgical cut-backs can new growth take place. Major turning points in this 35-year cycle will take place at approximately 9 year intervals. When you are born under this planetary phase, it can be your destiny to live out the collective idea, by working intensely on restructuring processes in society.

## **Originality**

### **Uranus In Virgo**

**COLLECTIVE - ORIGINALITY:** Liberation from labour  
Uranus takes 84 years to orbit the Sun and is in this sign for 7 years, representing a collective influence on a whole generation. It shows how you are most influenced by revolutionary attitudes in society. When the Ascendant is in Aquarius this influence will be expressed in a more personal way.

Uranus went through the sign of Virgo from 1962 to 1968 and will do so again from 2046 to 2052. Collectively these are periods of great labour unrest, partly as a result of technological breakthroughs which both bring freedom from monotonous employment through automation, and transform the attitude of society to work in general. This influence heralds a period of change as regards health reform, bringing radical new views about the relationship between mind and body, and removing responsibility for personal health from authorities.

Should you manifest this collective influence in a personal way, you will wish to make a personal statement through the way you work, creating alternatives to traditional modes of work integration. Nine-to-five jobs will not appeal, as you believe in the individual's right to administer his or her own time. You may have some unusual talents or interests regarding health, perhaps because of a need to resolve imbalances in your own body.

### **Uranus In 12th House**

**PROFESSIONAL - ORIGINALITY:** Beyond spiritual borders  
You may want to integrate some unique talents as regards social idealism into your career. You can be particularly inspired by the plight of people who live on the periphery of society in some way. Your social concerns are felt very much on a collective level, and you tend to see solutions in terms of far-reaching political change. You can identify with the outsiders in society and may wish to perform social service on a particularly altruistic level - perhaps as part of an international humanitarian organisation. You are often disillusioned by the official bodies which have been established to help people in need, and are attracted to loose interest groups in which the individual effort makes a difference.

**PERSONAL - ORIGINALITY:** Beyond spiritual borders  
You are susceptible to rather dramatic changes of consciousness on a spiritual level during the course of your life. Trauma and shock on an inner level shakes up your psychic defences and awakens deep-seated curiosity about the inner realms of the imagination. A sudden experience or consciousness of other unseen worlds can open up new psychic interests. You would benefit from contact with a group of like-minded people who have a similar attitude to spiritual issues. You know that there is more between heaven and earth than meets the eye, and you can become a channel for spiritual information or work with human consciousness in one way or another. You may develop an interest in the human aura, electrical phenomena, clairvoyance and similar themes.

## Uranus Sextile Neptune

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

**PROFESSIONAL - ORIGINALITY:** Spiritual revolution

This long-lasting aspect will be shared by everyone born in any particular 4-year period, but if you express its influence in your career you will be able to channel a talent for working with the electronic media on one level, or personal consciousness on another. There is an electric idealism with this aspect and very little grounding. Some people may be able to tune into latent telepathic and clairvoyant powers, and use them in their job. Contact with international companies which have strong cross-border communications brings good fortune. Work with advanced technology, especially connected with instantaneous communication is another possibility. There is an inbuilt tension between the principles of freedom and service which can be expressed in irrational political and social convictions.

**PERSONAL - ORIGINALITY:** Spiritual revolution

This aspect has an influence on a particular generation, but you may personally feel and express its power through an interest in aspects of human consciousness which are on a very subtle level. This can relate to the power of dreams, clairvoyance etc. in fact the whole spectrum of the New Age movement. If personal planets also aspect these distant planetary giants, you will feel a deep longing to transcend yourself through some kind of spiritual interest. Drastic changes will occur in the pursuit of your dream, and you may be willing to abandon the secure structures you have built up to follow your ideals. Needless to say you will often be disappointed, but the whole process enhances your awareness and spiritual consciousness. You can be deluded by the allure of charismatic personalities - take care.

**COLLECTIVE - ORIGINALITY:** Spiritual revolution

These two planets conjoin once every 172 years, so aspects between them are rather rare. There was a trine during World War II, and a square in the mid-fifties. Most recently they were in conjunction in 1993 for the first time since 1821. As Neptune was only discovered in 1846 this last conjunction is the first to take place with the knowledge - and after Voyager 2's flypast - participation of humanity. This aspect brings deep-seated change to the consciousness of humanity. On one level the advanced technology of the period transcends border and race to join all nations together. Global communication warps and undermines accepted notions of time and space. Revolutionary change comes to governments as they integrate the very disparate need to be individual and independent with the need to belong to a greater whole. This signals a growth period for electromagnetic energy and the media, as well as all forms of electronic communication. On an inner level there is a spiritual revolution, with the flowering of esoteric interests.

## Uranus Conjunction Pluto

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

**PROFESSIONAL - ORIGINALITY:** Total revolution

This influence last over a period of years and affects whole generations. It is connected with social and technological renewal which transforms world consciousness. If this influence is made personal in your life by aspects to personal planets in your horoscope, you will meet it in the outer world in the form of revolutionary groups or outsiders, or through dealing with the technology of radical change. You may also have a talent for creating revolutionary change in large organisations. There can be a particular talent for working with computers or in organisation where automation is an issue. Or you may play a social role dealing with the personal upheavals that the electrification of society causes. Sudden and extreme employment change may arise as you get swept up in vast collective trends.

**PERSONAL - ORIGINALITY:** Total revolution

On a personal level you may experience periodic traumatic upheaval and this can lead to a transformation of personal consciousness. In the face of this energy the human mind is often gripped by powerful obsessions - this was for example witnessed on a collective level in Germany when Hitler came to power in 1933. (Uranus square Pluto). You will almost certainly encounter someone in your circle during your life, whose obsessions wield a fascination over you, or evoke horror. If this influence manifests on an intimate level you have to be aware of a tendency to evoke anxiety in your partner through an extreme unpredictability or self-destructiveness. By avoiding extremism and concentrating on personal growth you can mitigate tensions that may arise.

**COLLECTIVE - ORIGINALITY:** Total revolution

You will be very sensitive to the phases of the Uranus/Pluto cycle. As Uranus takes 84 years to go around the Sun, and Pluto 246 years, these aspects are rare. Because Pluto has an irregular orbit the cycle varies in length. The last time the two planets met in conjunction was in 1966, the one before was in 1851, and the previous one was in 1710. At the present time, the square and opposition phases of the cycle come at approximately 30 year intervals.

The contact between these planets brings dramatic and revolutionary change. Revolutionary new forms of power are discovered and utilised. 1966 was for example characterised by Flower Power, the computer revolution, factory farming etc. - very much expressing the nature of the sign Virgo in which the conjunction fell.

As part of a whole generation born with this contact, your mission may be connected with revolutionary forms of consciousness, and the total revaluation of the collective vision of Planet Earth.

## Uranus Trine N. Node, Uranus Sextile S. Node

This aspect is of medium strength and its influence will often be felt, though not acutely.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

**PROFESSIONAL - DESTINY:** The lightning rod

Exciting things happen around you, wherever you are, and you are destined to galvanise into action the groups and

---

organisations you are involved with. You are a force for renewal in those situations that have ground to a halt, and you can channel a message of inspiration or revolution. On the other hand, you tend to light the bomb and walk away, often being seduced by the idea of change for its own sake, and rarely having the ability to handle the consequences. There may be an element of extremism in your nature, and an attraction to extremist groups, or to people on the fringes of society.

**PERSONAL - DESTINY:** The lightning rod

You are possessed of a magnetic aura which can be very inspiring for the people who meet you. Nevertheless you are also an upsetting influence, so that although people may look to you for inspiration, they may feel a certain discomfort in the long run. Indeed it is your fate to be something of a provocateur you do not believe in people getting too comfortable. You are a force for change, and may have a particular ability for New Age interests, dealing with subtle energies etc. Dramatic consciousness change at intervals in your life can sweep the ground from beneath your feet and carry you off with your head in the clouds.

## Transcendence

### Neptune In Scorpio

**COLLECTIVE - TRANSCENDENCE:** Transmutation

Neptune takes 165 years to orbit the Sun, and approximately 14 years to go through one sign. Its influence affects a whole generation, and is associated with a new sensory and spiritual awareness, and greater compassion, in connection with the sign it is in. For most people this influence is experienced on a collective level, but those who have their Ascendant in Pisces will express it in a personal way in their lives.

Neptune was in Scorpio from 1793 to 1806, and again from 1955 to 1970. There was a deep collective awakening of hidden emotional drives at this time, especially activated by musical developments and the influence of the media. The deepest fears of humanity seeped to the surface, and people were forced to develop new attitudes to death and destruction - a process which on the one hand enriched society on a spiritual level, and on the other created a certain mass hysteria.

If you channel this collective influence in a personal way, you will have a deep fascination with hidden and tabu matters, and with sexuality and the occult. At the same time there may be musical or magical talents which enable you to mobilise hidden powers to awaken others. Your search to satisfy your desires turns out to be a spiritual dead-end, and you learn quickly that the more you fan the flames of desire, the brighter burns the flame. Greater satisfaction is attained when you use your talents on a higher emotional or spiritual level.

### Neptune In 2nd House

**PROFESSIONAL - TRANSCENDENCE:** Refine personal values

You have a rather haphazard attitude to material values - you may be quite successful at accumulating worldly goods, but they have very little meaning for you. Experiences early on in your career convince you that it is no use selling your soul for material benefit. Professionally it is not the lucrative offer that catches your interest, it is more the ability to use your fantasy and imagination - and these are great personal assets. You have a talent for finding unusual solutions to material problems. You may find material success connected with advertising, film, the oil or chemical industry, or in caring professions. You have a "liquid" attitude to money, and if you are not careful you can be called to account for poor financial administration.

**PERSONAL - TRANSCENDENCE:** Refine personal values  
You are well aware of the idea that money does not bring

happiness, and experience tends to bear this out for you. Material loss will have profoundly affected your values at some point in your life, and as a result you hate to prostitute yourself for material gain. Nevertheless you often dream of attaining wealth, and success in this area would be no problem, as you remain unattached. There may be special circumstances in your life which drain your finances - keep an eye on your money! In partnership matters there can be a drain on your finances through some economic folly based on false idealism, or some issue which you refuse to confront. You prefer to live in blissful ignorance about your finances, and you will pay for this.

### Neptune Sextile Pluto

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy. When reading the following text, please bear in mind that you will for the most part experience only the positive effects of this aspect. You are particularly stimulated to learn and communicate, as regards the matters concerned.

**PROFESSIONAL - TRANSCENDENCE:** Mass vision

These aspects are very rare and last a very long time. Indeed, as Pluto moves within the orbit of Neptune in the closing years of the 20th century, the present sextile aspect between the two planets lasts from 1940 to 2040 - one hundred years - so almost everyone has it! If you are able to manifest this influence on a personal and professional level (through powerful contacts in your own horoscope), it may be connected with a deep spirituality and creativity. There can be talent for dealing with the media and wide-ranging themes connected with the masses. Material issues will be less important for you than the realisation of a collective dream. There can be clairvoyant powers, and abilities connected with dreams, symbols and visualising. In industry there can be a talent for dealing with oil, the film industry or the transforming power of collective visions.

**PERSONAL - TRANSCENDENCE:** Mass vision

If you have this influence powerfully evoked by other factors in your horoscope, you will be deeply affected by spiritual issues, and constantly seeking to refine your consciousness. At these times you are likely to experience great personal disorientation and confusion, as old dreams and visions are replaced by new, deep psychological insights. Inner growth will have major priority in intimate relationships. During periods of your life you will undergo deep transformations in which your fantasy and imagination will play a powerful role. It is essential to learn to use your imagination in a positive way by learning about the power of the unconscious.

**COLLECTIVE - TRANSCENDENCE:** Mass vision

The Neptune/Pluto planetary cycle is connected with spiritual evolution on Earth and whole generations share this present harmonious aspect which - lasting as it does from 1940 - 2040 - is connected with a deep spiritual transformation process

affecting the whole of human consciousness. Neptune catches up with Pluto every 492 years, in what can be considered a spiritual seeding period for our planet. New collective ideas emerge at the start of this cycle, evoked by sudden developments of the technology and discoveries of the time. The major conjunctions since the birth of Christ were 411 AD, (disintegration of Roman empire), 904 AD, 1398, and 1891-2. This last conjunction in the sign of Gemini may therefore partly relate to the revolution of transport (flight and automobiles) and communication (radiowaves) which has such immeasurable effects on our consciousness today.

## **Neptune Opposition N. Node, Neptune Conjunction S. Node**

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

This aspect shows a strong polarisation in your chart, and difficulty in integrating the principles described. There may be travel and separation in connection with the principles described below.

**PROFESSIONAL - DESTINY: Living a dream**

Though you tend to keep yourself on the outskirts of the organisations and groups which constitute society, you may be able to exert a quiet influence on the collective mood through your deep concern or high ideals about human life. You may have Utopian principles with completely unrealistic dreams about human nature and social relationships, but you do have a guiding vision for humanity. You may have the ability to channel collective visions through the power of the media. People project their hopes and dreams onto you.

**PERSONAL - DESTINY: Living a dream**

Your life is a journey in search of the unattainable. You are guided by feelings and intuitions which go completely beyond your personal ego, and you may feel - or long for - a sense of connection with eternal forces in the universe. During the whole course of your worldly existence you are reminded of the emptiness of so-called reality. Many disappointments arise to remind you of the futility of worldly ambition, and the field of human relationships is pervaded by an aura of dissatisfaction. You are in the world, but not of it.

## **Transformation**

### **Pluto In Virgo**

**COLLECTIVE - TRANSFORMATION: Servitude transformation**  
Pluto has an irregular orbit around the Sun which takes about 248 years. When Pluto is closest to the Sun it takes only 12 years to traverse a sign. When it is furthest away, it takes approximately 30 years. Its influence is felt collectively on a very deep level in society, bringing trauma, transformation and renewal in regard to the sign it is in. Individuals with their Ascendant in Scorpio may express this influence in a personal way, otherwise its effect is expressed as an underlying influence on a whole generation.

Pluto was in Virgo from 1711 to 1725, and again from 1957 to 1971. Major transformation in employment trends took place at these times because of developments in technology which undermined traditional crafts and professions. These changes had a profound affect in both the factory and the land through industrial and agricultural reform. Socially there was a greater emphasis on services and health reform, with new developments - and a certain fanaticism - as regards hygiene and cleanliness.

If you are able to channel this collective influence in a personal way you may have certain interests or talents in matters of health. You are especially aware of the interrelation of body and mind, and may have some troubling ailments as a result of this

interplay, or as a result of oversensitivity to additives and impurities in food or other substances which you encounter in your daily life. Daily relations with friends in your place of work may also force you to re-evaluate social bonds. Difficulties in securing employment, or a feeling of being misused at work may force you to change direction in your profession. You have the capacity to enact deep-seated changes in social service functions in society.

### **Pluto In 12th House**

**PROFESSIONAL - TRANSFORMATION: Exorcism**

You may be able to use a talent for helping people on a psychological level in your career. You have the ability to keep cool when everything around you is in chaos, making decisions and cutting through to the essential issues when there is nothing firm to hold on to. You can deal with people who have gone over the abyss into total mental confusion, psychosis and self-destruction. You can orientate yourself in a psychic landscape populated by the demons of irrational fear and trauma. Perhaps at some point of your life you will work in a secret environment totally removed from the rest of society. You may also choose to throw in your resources into fighting evil forces in society. Having said this, you may be pathologically secretive yourself and afflicted by exaggerated fears of conspiracy, or that people go behind your back, or with the idea that everything is being manipulated by powerful and shadowy forces behind the scenes.

**PERSONAL - TRANSFORMATION: Exorcism**

During the course of your life you are going to have to face and purge inner psychological demons which defy the boundaries of rationality. Early in your life your behaviour will be subtly influenced by repressed fears such as the fear of the dark, or fear of nightmares, or fear of being locked away. You are more aware than anybody of the influence of the shadowy world of the unconscious, and this can give rise to a certain paranoia because of the idea that unseen forces are more powerful than you. At its worst you may be obsessed by unprovable conspiracy theories regarding large organisations. However, where there is evil you have the resources to combat it, and where there are people in psychic need you can step into their personal hellworld. You can develop powerful spiritual and psychological insights during the course of your life, and through a process of inner transformation and purgation you purify your soul.

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

Please remember when reading this section, that the

harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

**PROFESSIONAL - DESTINY:** Survival in extremity

You emit an aura of power in your social relationships, and you may get involved with groups or organisations of a secretive nature which exert a powerful yet hidden influence over the masses in society. A role will be found for you at times of great upheaval, and you will often be called upon to preside over or witness the forces of change which are completely beyond the control of normal institutions, when the hand of fate crushes the safe structures in society.

**PERSONAL - DESTINY:** Survival in extremity

Profound upheavals or staggering transformations can change the course of your life at key moments in your development. You will be exposed in one way or another to the destructive forces in society, or to the inner demons of fate, and this may force you to make ruthless decisions to ensure your survival. Archetypal memories of death or destruction can trouble your unconscious mind. You may also be exposed socially because you awaken anxiety or sexual undercurrents in others. You will be no stranger to loss, but you have no difficulty in turning your back on the past and starting anew.

## Destiny

### **N. Node In Taurus, S. Node In Scorpio**

**PROFESSIONAL - DESTINY:** Into a safe harbour

Strong survival instincts are a major motivational force in your career. Unconscious and seemingly irrational fears that you will lose whatever you have built up because of some supposed future upheaval can make you reluctant to embark on any long-term project. The basic foundation of your life is rocky, and makes success difficult. It is therefore important for you to embark on a thorough reorganisation of your values in life, and set out to create a solid economic foundation. Some emotional trauma may lie at the root of your deep-felt need for security, and by learning more about your psychological make-up you can pave the way for economic success. Achieving your economic goals and attaining security can give you a deeply-felt calm.

**PERSONAL - DESTINY:** Into a safe harbour

The first part of your life is governed by deep-seated passions which often bring you into emotional turmoil. You may have great difficulties controlling irrational feelings of jealousy, which are based on deep anxieties about self-worth. Sexual drives exert a strong hold on you, yet satisfaction is elusive. The more you indulge your desires, the emptier you feel. You cast about amongst the left-overs of others searching for a set of personal values that you can embrace. Your greatest longing is for a safe haven of security, where you can experience emotional and economic security, and in time this will come. In your search for peace you constantly build up and then abandon life-structures designed to quench the flames of your needs. Peace come from a surprising quarter, when you embrace values which conserve instead of destroy. Perhaps it is a question of tuning in to the richness of your senses, so that you can fully appreciate what you have, rather than mourning what you have lost.

### **N. Node In 8th House, S. Node In 2nd House**

**PROFESSIONAL - DESTINY:** Transformation of values

Your early life is profoundly influenced by material and family bonds. Indeed you can be weighed down by a lifetime of acquisitions, and you can feel that you are in a rut in personal relationships. You may have gravitated to a job which guaranteed you a good income, pension rights and material

security, but as you get older the sense of being suffocated by "things" can become unbearable. You feel you work hard to ensure economic stability and that this prevents you from realising deeper qualities. A radical professional transformation will then take place with a much greater emphasis on emotional and psychological interests. This may be accompanied by an interest in the occult and mystery. This transformation will endow you with a greater sense of personal power. You will be prepared to take an economical loss to achieve these new goals.

**PERSONAL - DESTINY:** Transformation of values

Your early life is profoundly influenced by material and family bonds. Indeed you can be weighed down by a lifetime of acquisitions, and you can feel that material commitments prevent you from fulfilling your deepest desires. A turning point comes at some point - at the age of 37 at the latest - when you experience a transformation of personal values. There can be a considerable material upheaval at this point in your life in which you renounce possessiveness - both in intimate relationships and material bonds - and embrace a completely different set of values based on deeper issues of the soul. You may discover some psychological talents at this time, and you will be moved to learn more about the hidden side of life. You will be strongly motivated to improve your experience of sexuality, and to get to know your partner on a much deeper level, when this transformation takes place.
