## Life Path

### Ascendant In Sagittarius

**PROFESSIONAL - LIFE-PATH:** Influence & understanding  
You are philosophical, love freedom and open horizons, and these needs will be reflected in your choice of job. You would be happiest in an employment which offers dynamic possibilities, constant change and future promise. You would work well in pioneering ventures, especially if they offered connections abroad, or the opportunity to expand your inner or outer horizons. You are a person of extremely strong convictions and you are a passionate believer in justice. As your ideals are all-important, you have a need to see your work having an effect on society in some way. It is also essential for you to feel that what you do has meaning on a larger scale. Winning the hearts and minds of other people is important, so you may involve yourself in further education projects, consultancy, publishing and the media, or shaping public opinion in some way.

**PERSONAL - LIFE-PATH:** Influence & understanding  
You are powerfully motivated to understand your place in the world and the meaning of your existence. Your curiosity and need to explore your boundaries will lead you to travel considerably during the course of your life. If or when you prefer the settled life, then you will read, study and discuss to gain further insight into the world. You are philosophically orientated, seeking depth and answers. In partnership matters you may often feel that your opinions are trivialised; conversely other people feel you take yourself too seriously. When you are bombastic and opinionated, other people compensate by being flippant or, in your eyes, superficial. An acceptance of the relativity and diversity of truth, and a certain self-deprecating humour, can make you easier to get on with.

### Ascendant Opposition Sun

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy. As these two planets are on opposite sides of your horoscope they indicate that you are split between two quite different drives. As a result you tend to imagine other people with the negative qualities described.

**PROFESSIONAL - LIFE PATH:** I, myself, me  
Whether you would prefer to have a low profile or not, you will often dominate your surroundings through the force of your personality. Professionally you strive to do your very best - for success is a matter of honour for you. You have a magnanimous disposition, and are generous in your dealings with others. Creative work and self-expression must be an important element in your professional life. You stand on your pride too much.

**PERSONAL - LIFE PATH:** I, myself, me  
You have a radiant personality, with a touch of self-importance. You take yourself - and the impression you make on others - very seriously indeed. Some people may consider you self-centred. You tend at least to be the centre of attention, and although you invest all of yourself when you relate to others, you give your own personal development needs priority. You have plenty of surplus energy, and your playful nature can make you a figurehead for young people.

### Ascendant Quincunx Venus

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart. The beneficial results of this aspect seldom come before the age of 35. Prior to this you tend to either be over-helpful, or

over-secretive, as regards the matters concerned.

**PROFESSIONAL - LIFE PATH:** Aesthetic comportment  
You have the ability to create a pleasing impression, and generally you comport yourself diplomatically and with all the social graces. As the ability to win the affections and confidence of others is one of your greatest talents, you would do well dealing with people in one form or another in your professional life. Aesthetic issues are also of great importance to you, and this may be reflected in your work.

**PERSONAL - LIFE PATH:** Aesthetic comportment  
You exude an aura of grace and good taste, and this can win you many friends and admirers. Your dress, and taste in personal adornment, creates a very harmonious and pleasing atmosphere. You are easily seduced by beauty, and often led astray by affairs of the heart. Stable relationships can be threatened by your need for romance. Love is the spice of life. You have a weakness for sensory stimulation and luxury.

### Ascendant Sextile Jupiter

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart. When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

**PROFESSIONAL - LIFE PATH:** The counsellor  
You are not interested in trivia, and therefore seek a profession which gives some kind of overall meaning. You are probably destined for success, and can exert considerable influence through the power of your opinions or good judgement. You have a tendency to overestimate the importance of your ideas, and may be unreceptive to the views of others. Generally, however, you maintain a fine perspective on the important issues. You are an excellent adviser.

**PERSONAL - LIFE PATH:** The counsellor  
You are a larger than life character with strong views on most issues, and a deep interest in spiritual issues. You are open and willing to expand your philosophical horizons. Generally blessed with good fortune and an optimistic frame of mind, you have the ability to expect the best of the future. There may be a tendency to overindulge or be too extravagant. People value your ability to understand in depth the things that move them.

### Ascendant Conjunction Neptune

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy. This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

**PROFESSIONAL - LIFE PATH:** The spiritual path  
You are rarely motivated by purely ambitious interests, and therefore you function best when engaged in a job in which you can invest your ideals and dreams. Ordinary goals can hardly satisfy your needs, which are more orientated towards feelings and sensitivity, or music and creativity. You need to feel moved by influences beyond the personal.

**PERSONAL - LIFE PATH:** The spiritual path  
It is important for you to overcome a subtle feeling of dissatisfaction or sorrow in your life - both in connection with the direction your life takes, and in connection with partners. This involves finding a sense of meaning in your existence. Creative or spiritual interests, and the pursuit of inner purity, can bring much needed inner harmony. You are very

impressionable and easily influenced by the vibrations of other people, so you need to indulge in periods of withdrawal.

## Ascendant Sextile Pluto

This aspect is of medium strength and its influence will often be felt, though not acutely.

The sextile aspect is favourable, and stimulates your capacity to learn from experience. You can expect the negative effects to be minimal.

PROFESSIONAL - LIFE PATH: Aura of mystery

You are attracted to positions of power in which you can exert control over your environment and professional relations. You have the power to deal with unpleasant confrontations, and you can make difficult decisions under pressure. There may be a ruthless streak to your character, as you often imagine threats to your position. This means that you can exhaust your resources in battles for power.

PERSONAL - LIFE PATH: Aura of mystery

You have a magnetic personality and tend to exert a powerful influence on your environment. Secret efforts to feel secure in your personal relationships can be exhausting - both for you and for others. Though you have psychological talents and an ability to penetrate facades, you tend to allow an obsessive ideologies or opinions to poison your relationships. When you relinquish control you discover peace.

## Jupiter In Scorpio Retrograde

At birth this planet appeared to be moving backwards relative to the Earth. You will learn special lessons in connection with attachments to people and things from the distant past, and a turning point will arise, at some point in your life, in the matters described.

PROFESSIONAL - WISDOM: Practice good magic

You were born at a time which highlighted developments in the world of international finance, issues of elitism, secrecy, and power use and misuse. When you fully realise your personal potential in this area, you will be able to use your capacity to deal with and wield power in one way or another. This can give success in the corridors of power or high finance, or alternatively you can develop deep psychological insight based on inner philosophical or religious convictions. Your deep emotional commitment to your beliefs enables you to achieve your will by the magnetic force of your presence alone. Success comes within your reach when you enunciate and act on beliefs which relate in some way to the emotional health or security of other people. You have the power of the magician; when you focus your energy on future transformation, miracles happen.

PERSONAL - WISDOM: Practice good magic

You have a deep and intense emotional nature with powerful, though often secret, convictions. At some point in your life your beliefs will undergo a radical transformation in which you abandon old belief systems. Even when silent you tend to exude a powerful influence on those around you because of the strength of your beliefs. It is wise therefore not to be too forceful outwardly, but to reach inwards into the burning ground of your emotions. Possessiveness, sexual desire, ideological obsessions and other powerful emotional drives can exert a strong influence on you, until the time comes when you eliminate the hold they have. When this time comes you develop even more insight into the secret nature of the human mind and emotions.

## Jupiter In 9th House

PROFESSIONAL - WISDOM: Expansion of understanding

As you have considerable intellectual depth and a fine overall perspective you are suited to a profession in which your powers

of judgement and capacity to exert influence play an important role. Matters concerning the law, or the broadcasting of cultural values, or any situation in which you can get convictions across to the general public are all areas of employment in which you can thrive. Higher education can be important for you, and in your professional life you would appreciate the chance to constantly enhance your abilities through further training. You tend to be tolerant and cosmopolitan so you will demand a job which gives you wide intellectual and cultural horizons - even the opportunity to travel long distances abroad.

PERSONAL - WISDOM: Expansion of understanding

You have been endowed with considerable natural wisdom and the capacity to understand the significance of your life. Your upbringing will have been influenced by strong parental convictions, and this has stimulated you to work things out for yourself and develop your own understanding of the world. Powerful religious, political or philosophical beliefs shape your life. You are extremely persuasive in your beliefs, but you should bear in mind that other people may find you rather dominating. It is important for you to listen to the world view of other people if you want to avoid becoming bigoted. You may be profoundly influenced by a mentor or guru-figure from a foreign land.

## Identity

### Sun In Cancer

PROFESSIONAL - IDENTITY: Sense of belonging.

You are a loyal person easily moved by the bonds of attachment that link you to others - particularly family members. You work best in a secure environment with people you know, and your place of work can be a second family to you. You resent intruders, and it takes time for you to get used to new people in your professional circle. However you are talented at understanding others, and strongly motivated to help care for people. You are a vulnerable person and will seldom forget it if someone harms you, or someone else who you care about. You are particularly attached to your territory and defend it fiercely. Actually you work hard to create a cosy atmosphere at your place of work. You have a natural business talent for increasing your assets. You hang grimly on to professional gains, but often future growth is prevented by past clutter. Economic insecurity can make you physically ill, because you are so attached to home and family and fear loss. But you are dynamic and industrious, so you tend to steadily advance in life.

PERSONAL - IDENTITY: Sense of belonging.

The bond to your mother will have been particularly formative. You are sensitive and easily hurt - though this may not be immediately apparent on the outside. Likewise, you are loyal and passionate in your defence of those you love - injury done to them is also done to you. You have a strong and instinctive protective nature. The greatest dilemma in your life comes when the bonds of attachment are broken - for example in connection with changes in the family structure. At these times it is important to recognise the dangers of sentimental attachment to the past. Your reluctance to let things go can stand in the way of your personal development. You have a great talent for building up a nurturing environment for those who are close to you, yet it can also help to be more open to those who are not necessarily so close. You are easily upset by changes in your daily rhythm, and can be rather grumpy when called upon to change habitual behaviours. Your home is your castle.

---

## Sun In 7th House

**PROFESSIONAL - IDENTITY:** Finding self in others

You get greatest satisfaction in your working life when you deal with other people on a daily basis. People will often see you as a person they can respect, and at the same time you feel a sense of personal significance when you are of importance to them. You may come to prominence through a partnership, and you can be very supportive in this respect if you do not allow your ego to get in the way. You may find that people identify with you and that you inspire them through your example. You are well suited to a career as an advisor or therapist, or any job in which public relations is importance. Your diplomatic talents enable you to work well with personnel and in any situation when deals need to be struck. You know how to listen and take the interests of others into account.

**PERSONAL - IDENTITY:** Finding self in others

Partnerships are important for you, and you can find your true identity when you tune in to the needs of another. You choose a partner you can look up to and respect - someone whose charisma can reflect on you. Women with this position may choose a father-figure type who is prominent in society - perhaps a member of the social elite, or successful in some other way. Men with this position tend to assume a father role. The tendency to identify too strongly with the partner can mean that you have no clear idea who you are as a person. An identity crisis at some point of your life will redress this imbalance, but if your partner is immature, there will be disappointment when you no longer put him or her on a pedestal. However, by defining your own goals and identity you can take the pressure off your partner to fulfil unrealistic expectations .

## Sun Conjunction Moon

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

**PROFESSIONAL - IDENTITY:** Conscious/Unconscious

As these two planets represent the basic building blocks of character, your success will very much depend on the nature of the aspect between the Sun and Moon, and other planetary influences. The main issue is your ability to assert yourself without unconsciously distorting the reactions you receive from others. Harmonious contacts between the Sun and Moon indicate a talent for nurturing and strengthening others through the capacity to understand them, as well as giving a wealth of creative talents in many areas. Disharmonious aspects give a tendency to misinterpret or distort the reactions of people who have influence in the world. Emotional conflict with people in authority can undermine progress in business life, and this will be connected with some immaturity on your part. Often the problem will lie in environmental instability in which your domestic situation is at odds with professional visions. At the conjunction - or the New Moon - there will be a strong self-sufficiency and a strongly integrated character, but it may be difficult for you to get an objective picture of yourself. This would be a definite disadvantage if you have to deal with others on an emotional level.

As you mature you gain greater insight into the role the unconscious plays in human behaviour, and in some cases this can lead to work of a caring nature relating to the emotional make-up of others.

**PERSONAL - IDENTITY:** Conscious/Unconscious

As the Moon waxes and wanes, it goes through different phases showing its relationship to the Sun. Each phase has a

specific effect on personal character. At the New Moon - or conjunction - there is a strong self-awareness, but some frustration as regards getting on in life. Past bonds have a strong hold on the personal nature and will often stand in the way of progress. In relationships the conjunction can make it difficult to gauge one's effect on the partner, and although there is a strong sensitivity, it is felt very subjectively. Often the bond to the parents is rather unique with this aspect, and the family life is characterised by an insular self-sufficiency. The father may exhibit a strong emotional or caring nature, and the mother may well have strong independent characteristics.

The full moon - or opposition - on the other hand gives almost too much objectivity, and emotional interactions in relationships are quite dominant. There is a tendency to project behaviour and attitudes on the partner, which in reality belong to oneself. This may be due to an upbringing in which there was a strong contrast between the parents. If so, you will have identified strongly with one parent to the detriment of the other.

The half moon - or square aspect - also bring conflict between the identity and emotional needs. As you mature it becomes essential to control inappropriate emotional reactions which relate back to frustration regarding your interpretation of parental conflict.

When the Sun and Moon have a harmonious relationship to each other, through the trine or sextile aspect, there is much greater ease in expressing feelings and ascertaining one's effect on others. Whatever the aspect, you will have a very strong emotional nature, and feel an enormous pull from the past. You will have well-developed instincts and a talents for delving in to the dark realms of the unconscious. Generally speaking with all aspects between the Sun and the Moon it pays to exert the influence of the will on your emotions, so that you gain greater consciousness of the deep-seated emotional programmes which still unconsciously affect your behaviour.

## Sun Trine Jupiter

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

**PROFESSIONAL - IDENTITY:** Insight

One of your greatest professional assets is your optimism and ability to envision and empower the future. You have the capacity to occupy a high profile position in which your charisma and personal identity play a leading role. As you are strongly motivated to acquire insight in your life, and rather philosophically minded, you would function well as an advisor, counsellor or simply as a leader figure, whom people turn to for advice and a sense of direction. It is essential that your profession offers you the opportunity for growth. You need wide horizons and you will probably find that you travel a lot in your work. You are cosmopolitan by nature, and enjoy the cultural aspect of your work. You have very strong convictions indeed, and may be rather morally high-minded. This side of your character can lead to ideological confrontations with influential people. You have great difficulty in admitting your mistakes, and although you have vision and prophetic sense, you can be wildly optimistic about the future, and are often to be seen chasing dreams of prosperity. Inasmuch as vision is necessary for success, you will generally reach your goals, but greater attention to planning, more realism and more patience would help you consolidate your position.

**PERSONAL - IDENTITY:** Insight

You are an inspiring person with a wonderful capacity for positive thinking and looking on the bright side. You are a seeker of wisdom, and this search will lead to many studies and many travels to widen your intellectual horizons. During the course of your life, you acquire a set of opinions and personal

---

---

convictions which play rather a dominating role in your environment. Gaining understanding of the meaning of your own life is important, and you identify strongly with the conclusions you come to. You have a great need to find a mentor or wise person who can instruct you, but few people will have the capacity to impress you on an intellectual or spiritual level. If you do not cultivate a sensitivity to the ideas of others you can become opinionated and arrogant. Others can find you mentally dominating or over-forceful in discussions. There is more dignity in giving your opinion only when asked, than in foisting your beliefs on others. Generally however, you will create a good impression because of the wide span of your mind, and a tolerant attitude towards others.

#### IDENTITY - IDENTITY: Insight

It is very likely that your father was a man of strong beliefs and convictions. These convictions may have been cultural, political or religious, and you will have had trouble as a child in standing up to the intellectual challenges your father set you. At worst he will have pontificated a lot and have been very unreceptive to argument. At best he will have been a jovial, humorous and warm figure, who really encouraged you to develop intellectually. He may have been a well-travelled man, and expanded your horizons with stories from foreign climes. You may have felt put in the shade by his larger than life character when young, but this will have inspired you to live up to some grand vision of yourself later in life.

Factors in your childhood have given you a hunger for knowledge and understanding which can be quite desperate at times. You are concerned about being able to define your identity and explore the boundaries of your being. With this aspect there can often be some anxiety about establishing the circumference of your identity, and manic phases can arise in which the boundary overflows into other people, nature, the cosmos. Often some kind of religious philosophy is important, because you discover that your ego alone is not sufficient in itself to explain the mystery of existence.

### Sun Quincunx Uranus

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

It is difficult for you to integrate the energies of these two planets, as they relate to different sense systems in your body. You should make some progress with this after the age of 30.

#### PROFESSIONAL - IDENTITY: Consciousness change

Your chief contribution to society is your ability to entertain original ideas and experiment with new ways of doing things. You need to work in an independent position or with a company which respects and encourages your originality. You quickly become bored if you have to perform the same functions day in day out. You need to meet people - and you thrive on unusual challenges, especially if they involve travel and dealing with radically different cultures. You may travel long distances to exotic countries, or work with advanced technology.

Alternatively you will go your own unique direction in your professional life, developing unconventional talents - perhaps connected with consciousness development in one form or another. You are not one to stand on ceremony either - you hate stuffy protocol and thrive on contacts with young and old, rich and poor. It is your job to pave the way to the future with new ideas and an original life-style.

#### PERSONAL - IDENTITY: Consciousness change

You are a true individual and other people may regard you as rather eccentric. You like to express yourself through actions which surprise others in some way, and you enjoy embracing ideas which are provocative. You do not like to feel tied down, and function best in a relationship which gives you a lot of personal freedom. Often your friends will seem more important

than your family, and as a result partners can feel that they are unable to establish an intimate contact with you, though you are usually quite open and fair-minded. During certain periods of your life you will choose to change your direction radically. These personal revolutions are often accompanied by new interests of an untraditional nature - for example astrology, electronics and technical matters, or mental powers. You have an electric and rather unstable aura around you, and often your nerves are on edge. People feel uncertain around you as they feel that anything can happen, so you would be wise to put them at ease about your intentions.

#### IDENTITY - IDENTITY: Consciousness change

Your father was probably unusual in some way, and he will have brought a sense of unpredictability into your life - perhaps because he travelled a lot, perhaps because he was an outsider in some way, or simply because he acted irrationally so that you never quite knew what he would do next. You may have had a friendly - not fatherly - relationship to him, or you may have felt totally alienated. Whatever, there was an aura of tension or excitement in your relationship.

Later in life this evokes a need for you to develop unconventional habits and be different in some way. Moreover, you can adopt a rather distant attitude to your feelings. At its most extreme, there can be a lack of grounding with very little sense of contact with the physical body, and far too much mental activity. Success in your life depends on you coming down to earth with your visions. Factors in your upbringing can lead you to feel that you are an outsider. Actually you would prefer not to run with the crowd, so why worry about being different? This feeling can be utilised positively by helping people who feel they are outsiders.

### Sun Opposition Neptune

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

As these two planets are on opposite sides of your horoscope they indicate that you are split between two quite different drives. As a result you tend to imagine other people with the negative qualities described.

#### PROFESSIONAL - IDENTITY: Find meaning in spirituality

On a professional level almost anything is possible for you - as long as you feel that what you do is meaningful. Whatever field you choose, your success will not satisfy you unless you work creatively or have altruistic goals. True satisfaction comes when you transcend material goals and personal ambition. You have high, and perhaps unattainable expectations of yourself...and often of others. You have an intuitive insight into others, and a natural creative talent, but you seem to have an unconscious drive to set up situations which guarantee disappointment or failure. You function best when there is an overall ideal that goes beyond your personal needs. There is a talent for working with visions and dreams, and areas of social concern.

#### PERSONAL - IDENTITY: Find meaning in spirituality

You are a sensitive and impressionable person with a strong need to be able to define who you are. You often feel that your grasp on reality is not tangible. If life becomes boring or monotonous, this can strike at the very core of your identity. Women with this aspect put their men on a pedestal from which they rapidly fall. In your longing to find an ideal that does not dissolve like a mirage in front of you, you will constantly refine your nature. Your longing and dissatisfaction is the engine of spiritual change in your life. You find yourself by going within yourself. Meaning in life comes when you seek to attain idealistic goals and develop a collective vision which benefits others. You would definitely benefit from meditative practice.

#### IDENTITY - IDENTITY: Find meaning in spirituality

Your early connection with your father was special in some

---

way. You may feel you had an intimate contact with him on a spiritual level, although later events will prove that you deluded yourself in this respect. But your father will have touched you in some ineffable way. He may have created a special atmosphere of dissatisfaction around him which evoked concern in you. In extreme cases there can be illness, alcoholism or some form of escapism. It is rare for the father to attain his dreams.

Actually you tend to misread people because of your longing for an ideal. Your father will embody this ideal and most probably fail to live up to it, and later you will put others in this role. When you stop having expectations of this kind, you will be able to avoid disappointment. Your dissatisfaction is a friend that guides you towards purifying and refining your life.

## Sun Trine Pluto

This aspect is of medium strength and its influence will often be felt, though not acutely.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

**PROFESSIONAL - IDENTITY:** Transformation of identity

It is important for you to make a strong impression on people, and you invest a lot of energy in this - more than you are aware of. Much can be gained by toning down your personal energy. You are suited to positions requiring the use of power and psychological insight. Whatever you do, you like to be deeply - sometimes fanatically - involved. This may often lead to battles of will, and you tend to win, basically because you cannot contemplate personal defeat. More flexibility would actually benefit you and help you avoid tiring power games.

Personal power is a natural asset - as you will discover after a number of significant personal crises which lead to a reevaluation of your role. These crises are centred around achievement at all costs, or fanatical attachment to a particular role which outlives its meaning for you. When you learn to tone down your sensitivity about self-esteem, and invest your considerable willpower into projects which really mean something to you, and to others, you can achieve success. You may have a talent for psychology or dealing with the powers of the unconscious.

**PERSONAL - IDENTITY:** Transformation of identity

Early personal experiences have made you sensitive about your identity, and anxious about self-esteem. However this means, paradoxically, that you often overwhelm others with your presence. Thus you tend to be a dominating figure in intimate relationships. You need a partner who is not superficial and who shares your intense approach to life. To achieve harmony here you should relax instead of asserting yourself, otherwise relationships will become very exhausting. It is important to realise that power battles are related to inner fears about your identity. Women with this influence will often be attracted to a dominating man, only to find that he does not match her own strength which was acquiring through trying times in childhood. More intimacy can be achieved by daring to show vulnerability.

**IDENTITY - IDENTITY:** Transformation of identity

It has not been possible for you to cement any truly deep bond to your father. Perhaps he disappeared when you were young, and a stepfather took his place, perhaps he was at home but unreachable or distant in some way. Because intimacy was impossible to attain, you feel a inner chasm of emptiness connected with your identity.

You have felt that you were not recognised as an individual - hence your deep need to manifest yourself strongly later in life. Although some of the fault almost certainly lies with your father, you have a tendency to compound the problem by withdrawing yourself totally when you feel ignored or unappreciated. This

was your way of protecting yourself psychologically as a child, but in the long run these tactics lead to a profound alienation. The enormous efforts you make to gain self-acceptance ultimately lead to great personal power and psychological insight. Psychic or intuitive powers can enrich your life and give strength to others.

## Sun Trine MC

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

Because there is a good aspect between these two planets, you can expect the positive consequences to be strong and very creative, and the negative consequences minimal.

**PROFESSIONAL - GOALS:** Ego consciousness

You are destined to attain a degree of prominence in your career, and can either make it creating your own business, or attain recognition in some kind of leadership role. You invest your identity into your career for better or worse, and your feelings of self-esteem and personal honour are intimately connected with the impression you make in the professional world. Take care not to flaunt the power you attain.

**PERSONAL - GOALS:** Ego consciousness

Your relationship to your father will have played an important role in your upbringing - especially as regards defining your need to express yourself through worldly achievement. Though you can attain your will in the world, and may be destined to great things, your achievements can only be measured according to how refined your personal character is. This means overcoming a tendency to indulge your ego.

## Emotions

### Moon In Cancer

**PROFESSIONAL - EMOTIONS:** Create a secure atmosphere  
You are a super-sensitive person with a deep need to feel safe and secure. You form close bonds to the people you like, but you can take an instinctive dislike to some people. Generally however your instincts and professional intuition are very accurate. You have strong feelings and are a very caring person indeed, and this may be reflected by the kind of work you choose

You are a loyal and supportive friend and colleague as long as your security is not threatened. You are very attached to past gains; to get ahead it is important to let go of the past. You would thrive in a caring role, and in businesses connected with security and property. Family business may appeal to you.

**PERSONAL - EMOTIONS:** Create a secure atmosphere

Your deep feelings are a powerful driving force for you - many of your actions are motivated by a need to protect yourself and those closest to you. Family bonds - particularly to the mother, home and family - are of the utmost significance - and it is in the nature of things that you will experience a good deal of emotional pain as you mature and close bonds are broken. You can be very moody and this has a powerful effect on your emotional environment. Overcoming possessiveness based on dependence, and resisting the tendency to make others dependent on you through emotional manipulation and over-protectiveness, are essential stepping stones towards developing a greater inner self-sufficiency.

### Moon In 7th House

**PROFESSIONAL - EMOTIONS:** Tuning in to others

You will wish to express your caring nature by having daily contact with the public in some way. Your enormous receptivity to the influence, problems and needs of others inclines you to a listening job in which you can give support and nourishment. As

---

you can perhaps be rather over-sensitive to the demands of others you have to take care not to become drained by emotional contacts. You form strong bonds to the people you are in contact with and this may mean that you can be manipulated too easily. You may make too many compromises for the sake of emotional peace. However, you are very supportive indeed and a real asset in any business partnership.

**PERSONAL - EMOTIONS: Tuning in to others**

Most of your emotional life revolves around your partnership. You form a strong bond at an early age when you are still emotionally immature. You are strongly motivated by security and stability in your relationships, and will be attracted to a partner who can provide this. Men in particular have a tendency to choose a mother figure. Women tend to take on the role of mother in partnerships. Despite the need for stability, marital life will fluctuate wildly. These emotional ups-and-downs are a result of your oversensitivity to the emotional state of your partner. You have difficulty distinguishing between what you feel and what your partner feels. Your concern for the partner's feelings paradoxically evokes exaggerated reactions from him or her. Learn to tune in to what it is you really feel, and allow your partner to have his or her moods without constantly imagining they have something to do with your actions. When you integrate your emotions in this way, your partner will be grateful to be able to express emotions in peace without always having to have consideration for how you will react.

## **Moon Conjunction Sun**

Please read page 4: "Sun Conjunction Moon"

## **Moon Square Mars**

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances. As there is tension between these two planetary influences in your chart, it will be very difficult for you to achieve the promised beneficial results before the age of 30.

**PROFESSIONAL - EMOTIONS: Temperament**

You have a dynamic and forceful personality, and generally get your way in your professional dealings. Your greatest enemy is your temperament - you get angry easily, and when you get angry, you take ill-considered actions. So if your job involves dealing with the public, there will tend to be a lot of conflict. You may however function well if your job entails the need to confront people and get things done, but not if it involves diplomacy or sympathy. You are impatient, but on the other hand you tend to invest your heart and soul into your work and get things done quickly and efficiently. However, you create an atmosphere of tension around you, and are extremely sensitive to criticism. You often imagine attacks which do not actually take place, instinctively going on the offensive, or defensive, to deal with supposed threats. Obviously this kind of reaction evokes the very kind of attack you are seeking to avoid. Only by taking a long, cool look at your assertive nature and by developing greater sensitivity and calm as regards others, can you hope to win goodwill in your professional life.

**PERSONAL - EMOTIONS: Temperament**

You were brought up in an atmosphere of tension which has made you constantly on guard. Perhaps your mother was an unusually aggressive woman, or perhaps there were many struggles in your family life. Whatever the reason you tend to get easily upset now - especially in your domestic life. Women with this aspect are often attracted to emotional men who express their feelings passionately and intensely. However this may be because of unconscious provocation from the woman, who - never having experienced peace and calm in her early life - recreates the atmosphere of tension through criticism or angry moods.

Men with this aspect tend to have a short fuse, and often go about in an irritated state of mind. By identifying early childhood patterns of tension it may be possible to combat these negative emotional anger-states, which can be the source of a great deal of internal pain. Expression of anger rarely solves anything. It does not pay to let anger out, as you may fondly imagine. It pays to be conscious of the reasons for anger, before it arises. As you mature and you gain insight into your emotional nature, you can learn to create an atmosphere of excitement around you. You will be inspiring to be with, and moreover, you learn to combat insecurity by giving freedom of movement and encouraging independence in those you are attached to.

## **Moon Trine Jupiter**

This aspect is of medium strength and its influence will often be felt, though not acutely.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

**PROFESSIONAL - EMOTIONS: Horizons**

You would thrive in a profession which offered you the opportunity to travel and explore different cultures. You could easily work or settle in a foreign country. Being restless in spirit, you get rather bored in a job which does not have an element of exploration - culturally, intellectually or geographically. You are essentially a very curious person, and the pursuit of knowledge is food for your soul. You can also be very caring, and your generous disposition can give you a talent for working with the public, especially as regards public opinion, marketing, or broadcasting values of some sort or another. Children would be especially benefited by your attention, and you have both the humour and educational drive to be a good teacher. You are not the kind of person to stay in any one job for a great length of time, unless it offers opportunities for growth and expansion.

**PERSONAL - EMOTIONS: Horizons**

Foreign environments may have played an important role in your upbringing, and generally speaking you will enjoy the cultural stimulation of travel and new horizons. You have very strong empathy, and your emotional life exerts a powerful influence on your environment. You feel things very strongly, especially as regards what is right and what is wrong. You react powerfully to perceived injustice, and instinctively flare up or get upset when you think something is unfair. Above all, you dislike restrictions on your personal freedom, and you can manifest a strong independence if you feel encroached upon. You may often overreact to quite normal expectations on the part of the partner, as regards commitment and responsibility. Generally however, your optimistic and light-hearted nature brings a lot of joy and happiness to personal relationships, just as long as you are allowed to feel free, travel and pursue your intellectual interests.

**EMOTIONS - EMOTIONS: Horizons**

Your mother had a strong influence on your personal convictions about life for better or worse. Perhaps she was religious or moralising, with extremely dominating opinions about what was best for you and the world. On the other hand she may have had an extremely beneficial effect on you - widening your horizons, stimulating you intellectually, and providing you with a strong moral foundation. Your mother was probably not the type to let herself be restricted by relationships, and she will have inspired in you the desire to expand your horizons and see the world. Because of these childhood influences, freedom to pursue your dreams and visions is important for you. You have strong convictions about your personal rights, but these may not be realistic when you decide to commit yourself to a relationship. You often get into emotional arguments on matters of principle when you feel you are being treated unjustly, but perhaps you

---

---

need to overcome a certain emotional irresponsibility. It is essential for you to re-examine and adjust your moral convictions.

## **Moon Opposition Neptune**

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

You will have to work hard to attain the beneficial results of this aspect. Partnership matters are central for your gaining an understanding of the principles involved and integrating them in your nature.

**PROFESSIONAL - EMOTIONS:** Develop intuitive sensitivity  
You are a supremely sensitive and impressionable person, and this will express itself as a moodiness and indefinable dissatisfaction. Yet you will almost certainly have creative and caring sides to your nature which can stand you in good stead professionally, as long as your job is not monotonous or meaningless. You have a capacity for being very sympathetic and understanding, and this may be a part of your work. You have spiritual talents - perhaps you can work with dreams or the unconscious in some way. You are powerfully influenced by your environment, and including the mood of the people around you. It is wise to choose environments free from pollution, spiritually, emotionally and physically.

**PERSONAL - EMOTIONS:** Develop intuitive sensitivity  
The greatest challenge for you is to attain emotional satisfaction, and this is best done by understanding the nature of your childhood. It is essentially for you to avoid the tempting pleasure of indulging your emotions and sentimentality. You so easily fall into negative emotional states, and this can make life miserable for the people around you. Your emotional impressionability creates serious problems in partnership matters - you simply have difficulty distinguishing the boundaries between yourself and your loved one. You take on the moods of others or absorb negative vibrations from the environment. The older you get the more you realise that this is just a bad habit, based on early conditioning. Avoid jumping into emotional swamps! Having said this, you have a wonderful talent for tuning in to other people emotionally and understanding them in depth. You are a very sympathetic person.

**EMOTIONS - EMOTIONS:** Develop intuitive sensitivity  
As a child you were profoundly influenced by the mood of your mother. You may feel the bond is close, you may idealise your mother, but there are strong indications that she sucked you in to her negative moods, enlisting your support and care. At worst she may have been something of a martyr, or in bad health, at best she was probably rather sad at times. This evoked guilt feelings in you, and an unconscious need to make things better.

Actually you are born to be concerned and helpful, so your mother could not really help evoking these feelings in you. The essential thing in your life is to realise how profoundly you were influenced by the emotional atmosphere of your childhood. By making conscious use of the creative side of your imagination, you can learn to avoid the old traps and create a positive environment for yourself and those close to you.

## **Moon Trine Pluto**

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

Please bear in mind that the contact between these planets is harmonious, which means that you will rarely be troubled by their negative influences. They represent a resource you can draw from.

**PROFESSIONAL - EMOTIONS:** Deep emotional involvement  
You are strongly motivated on an unconscious level by a need for security - a need which is very difficult to fulfil. However when you turn outwards and concern yourself with others, you will discover a special talent for helping other people find security. This may manifest as social consciousness. You also have a talent for dealing with people in crisis, possessing an inborn psychological ability to transform how people feel. You are suited to work which requires a deep personal involvement combined with a certain power and distance. You have the power to investigate deep emotional states in other people, and this can be connected with psychology or the occult.

**PERSONAL - EMOTIONS:** Deep emotional involvement  
You are a person who feels everything very deeply, although people who only know you superficially might not be aware of this. Your need to protect yourself emotionally comes from a number of disturbing childhood experiences which mean that you tend to play it cool in times of crisis. Problems arise in intimate relationships because you never let on how you really feel - if you had the courage to show your vulnerability, people would treat you better. You cling to emotional bonds with great intensity, yet in times of crisis you can suddenly amputate your feelings and become ice-cold. It is unwise to deal with crises by giving ultimata. It is essential to overcome these destructive defence mechanisms, if you want to enjoy warm relationships.

**EMOTIONS - EMOTIONS:** Deep emotional involvement  
You are profoundly marked by traumatic childhood experiences, in which you lost trust in family security. Your bond to your mother is at best complicated, and at worst non-existent. For some reason she was unable to nurture you - perhaps you were removed from her at some time, perhaps she was unable to breast-feed you, perhaps she was under such psychological pressure herself and did not have the resources to take care of you.  
Whatever the reason, you sought to protect yourself from the resulting vulnerability by amputating your emotional bonds so as not to feel pain. Effective though this may have been to ensure your emotional survival as a child, it becomes a deep and unconscious habit which sabotages emotional bonds later in life. It is particularly painful for other people to experience the icy atmosphere you create when you withdraw your feelings. Experiences later in life lead you to transform your drastic emotional survival tactics and in doing so accept greater responsibility for family problems. This transformation evokes a deep psychological understanding of others who also are tormented by extreme emotions.

## **Moon Trine MC**

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

**PROFESSIONAL - GOALS:** Soul life

Your career can be profoundly influenced by the world of feeling, by public mood, by the sea, the food industry, property or other issues which absorb public interest. Your family may play a role in your success - particularly your mother. As you are acutely aware of matters of public interest, you may choose to involve yourself in a caring profession. In the choice between career and family, emotional considerations win out.

**PERSONAL - GOALS:** Soul life

Your emotional life and your family bonds have high priority in your life. You manifest inconstancy as far as your goals are concerned, because you tend to turn to the past for security, and often allow your feelings to play a decisive role as far as your life-direction is concerned. On a positive level it could be

---

said that you are guided by the forces of the soul. You have an intuitive contact with the unconscious mind.

## Mentality

### Mercury In Gemini

**PROFESSIONAL - MENTALITY:** Explore the mind  
You are a true all-rounder, with amazing communicative abilities. You probably have a finger in several pies, and a good deal of knowledge in a variety of areas. You probably talk in a rapid way and change the subject often. Your diversity will give you success in mental pursuits, establishing contact with others, teaching, working with the mind etc. You are an ideas-person, and as such it is essential for you to have contact with people who can put your ideas into practice. You can work wonders on the telephone and feel generally at home with modern communication techniques. It is your job to teach, persuade and inform, and it is up to others to consolidate the results.

**PERSONAL - MENTALITY:** Explore the mind  
You are young in heart and mind and manifest a constant curiosity regarding people and the changes that go on around you. You hop from subject to subject when talking, and your voice tone is probably musical and light, and quite fast. You are restless and like to get involved in several things at the same time. Being as flexible as you are, truth can be seen as relative to the task at hand. In other words you do not like to commit yourself to a particular idea or truth for any length of time, but instead you find pleasure in exploring the whole spectrum of human interests and beliefs. It is more the dance of the mind that appeals to you - practical conclusions and applications may just be boring. Travel, meeting people and exchanging gossip about life are appealing pursuits for you.

### Mercury In 5th House

**PROFESSIONAL - MENTALITY:** Mental creativity  
You have a creative attitude to your profession and have a quick eye for profit. Generally you are confident enough to want to take a risk to get on in the world. You have a talent for getting your message across with charm and charisma, so you may find yourself involved with teaching or communicating. Certainly you have a way with children and a fine sense of fantasy and adventure. You are sensitive about your intelligence, and it is important for you to be able to impress others with your grasp of detail and general competence.

**PERSONAL - MENTALITY:** Mental creativity  
You have a rather impish nature and good sense of fun and can excel as a storyteller. Humour and wit, and a natural ability to communicate with charm means that you have a tendency to involve yourself in reasonably harmless romantic contacts. You are less motivated by erotic needs in romance than the need to be on the same mental wavelength. Your partner will appreciate your playful nature, and children will feel that you meet them on their own mental level. One weakness is that you tend to be flirtatious. Really your need to have an audience is best satisfied by creative work.

### Mercury Conjunction Venus

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart.  
Two energies are unified into one in this planetary aspect, and you will express this energy in a very personal way, for good or ill depending on other factors in your chart.

**PROFESSIONAL - MENTALITY:** Affability  
You are a very versatile person, combining good judgement

with taste and the ability to convey information in a pleasant manner. Success comes when you work with communication in one form or another. You may excel in the arts or in public speaking. You bring a human element into your professional dealings, and advancement will often come through the goodwill of others. Your mild manner and diplomatic nature leaves a good impression on others. You would function well in a position with lots of contact with people, for example dealing with personnel. You are very concerned about justice and make a strong effort to see both sides of any issues. You can secure agreement because you are willing to listen to others, and you are careful not to alienate people with impulsive remarks. Obviously with these talents you will prefer a harmonious professional environment to one in which there was too much trouble or competition.

**PERSONAL - MENTALITY:** Affability  
You have a gentle and sensitive nature, and strive to maintain harmony in your personal relationships, going a long way to meet the needs or demands of another, before you allow yourself to feel provoked. In love relationships communication is the single most important factor. This may stem from a very close relationship to a brother or sister when you were a child. Even now, you probably cultivate a brotherly or sisterly manner in your relationships, where games and the element of play have an important role. As mental stimulation is so important for you, you can get bored with your partner, and for some people this may mean a tendency to become romantically involved on the side, though there is rarely any malice involved, should this be the case. Erotic desire is hardly a motivating factor for you, but you do have a tendency to flirt, and this can make your life more complicated than you would wish.

### Mercury Trine Mars

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.  
Because there is a good aspect between these two planets, you can expect the positive consequences to be strong and very creative, and the negative consequences minimal.

**PROFESSIONAL - MENTALITY:** Sharpness  
You have an extremely acute mind, and can generally come to a decision far faster than the average person. You are quick to take action and enjoy the pleasure of outsmarting your competitors. You enjoy the thrill of mental combat. However you often cut corners, and your methods can be questionable. Your brusque manner can evoke considerable hostility in your place of work, so if you find yourself constantly getting into arguments or finding people irritating, you can be quite sure it has something to do with your behaviour. Perhaps you have a tendency to barge in or interrupt conversations, perhaps you speak in too harsh a manner or do not listen enough to others. It pays to plan more patiently, and think twice before you make your opinion known. You would function well in jobs which require tough negotiations or an aggressive verbal style. You have plenty of energy too, and like to travel and meet people. You are a go-getter.

**PERSONAL - MENTALITY:** Sharpness  
You get into too many arguments, and rarely consider the idea that you may be wrong. This truculent manner probably stems from conflicts in childhood with brothers, or perhaps your father. You worked out then that the best means of defence was offence. Yet troubles arise later in life because your frank and direct manner makes people feel that you are offensive. You don't always have to tell people what is on your mind. You hate to be bossed around or told what to do, so make an effort not to act in this way with others. Give them time to express themselves without interrupting, and resolve to stop criticism and arguments. Women with this aspect are often attracted to rather sharp men who may have questionable morals, or be

---

rather argumentative types, although this is a projection mechanism based on inner conflicts. Men tend to retain adolescent qualities and act at times as if they know everything. For both sexes it is important to slow down, otherwise the nervous system can be adversely affected. When you channel your enormous energy into creative, fun projects, you can achieve a great deal.

## **Mercury Trine Saturn**

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances. Please bear in mind that the contact between these planets is harmonious, which means that you will rarely be troubled by their negative influences. They represent a resource you can draw from.

**PROFESSIONAL - MENTALITY:** Mental discipline  
You have a logical and disciplined mind, and special skills as regards working out systems and performing tasks which require patience for long periods of time. You prefer to stick to rules and established methods, but you can apply your mind to any task in a very conscientious way, if required. You may be rather suspicious in allowing the imagination to have too much influence - you are the kind of person who reads instructions carefully and follows them. This can make you a little inflexible as regards integrating new methods. Furthermore your admirable attention to detail can hinder you in getting an overall perspective on things. In the first phase of your professional life you can be afflicted by a sense of mental inferiority, so it is important for you to spend time on further education in a constant process of acquiring new skills.

**PERSONAL - MENTALITY:** Mental discipline  
You are oversensitive about your intelligence and have a tendency to work twice as hard to prove to yourself and to others that you can meet intellectual demands. As you put so much effort into improving your mind, you can become quite an expert in your chosen field. However in personal relationships you can become very defensive when you are misunderstood, and in situations when you try to understand another person, a mental block can descend because you invest too much self-conscious effort in the process. Relationships would benefit dramatically if you were more relaxed in this respect. You are reluctant to admit it when you do not understand, and this can lead to an escalating situation of misunderstandings. You are also rather a stickler for detail and can be frustratingly pedantic, and your formal style tends to stand in the way of mental spontaneity. Many of the problems around communication improve after the age of 30, as you learn that communication is not a competition but rather a two-way process in which understanding brings mutual benefit.

**THE MIND - MENTALITY:** Mental discipline  
You have probably experienced a number of episodes which undermined your mental confidence as a child. This can be connected with siblings who you felt performed better at school than you did, or experiences at school connected with teachers or pupils in which you felt mentally exposed or ridiculed in some way. Whatever the cause the fear of not being able to grasp facts can be a mental block which acts as a barrier in communication. Trying too hard to understand can prevent you from learning.  
Some people with this aspect panic when mental demands are made on them, others develop amazing mental self-discipline and determination to make progress with their education. Sometimes further education is interrupted because of a lack of faith in the outcome, and if this is the case, you may find yourself taking up education again well into your thirties. There is however a danger of gathering information and learning facts and figures for their own sake. Too much concentration on details hinders you from seeing the wood for the trees. A point

comes when it is important to abandon theory and put learning into practice. When you overcome your lack of mental confidence you can become a model of clarity and mental efficiency.

## **Mercury Opposition Uranus**

This aspect is of medium strength and its influence will often be felt, though not acutely.

This aspect shows a strong polarisation in your chart, and difficulty in integrating the principles described. There may be travel and separation in connection with the principles described below.

**PROFESSIONAL - MENTALITY:** Inventiveness  
You have some mental qualities that border on genius. Being receptive to signals in the environment which go over the head of the average person, you know how to integrate radical new ideas into your work. You have the inventor spirit, and you are always willing to experiment with new methods. By developing your knowledge of the scientific functioning of the mind, you can be a driving force for renewal at work. You may be skilled at technical matters, computers or untraditional, even provocative subjects. It is important for you to learn to put your ideas across in a constructive manner however. You have a tendency to talk at cross purposes, without ensuring the other person is following you. Coupled with this you may also be impatient with people as they fumble with old concepts and ideas. You can be provocative, or go off at a tangent - and this may only serve to alienate you. Clarify your intentions when you communicate. You have a talent for exotic languages.

**PERSONAL - MENTALITY:** Inventiveness  
Other things being equal you have a very quick mind, and you attract attention through your ability to give conversations a surprising turn. You are quickly bored by conventional waffling and you are prepared to say anything, repeat anything, to give conversation more interest. Although at times you can be very amusing, this tendency easily leads to confusion and misunderstandings in relationships. You break the flow of communication - a habit you learned in childhood - and this leads to a rather stressful atmosphere in intimate relationships. You need to involve yourself with friends or groups which have similar interests to you, rather than expecting to get all the mental stimulation you desire from your partner. When you get bored in intimate relationships, you tend to say and do the opposite of what is expected, just to get results. You also tend to make provocative statements. This can be exasperating for the partner.

**THE MIND - MENTALITY:** Inventiveness  
You experienced an unusual mental environment as a child. This may have been due to siblings who were different in some way, or living in a foreign environment, perhaps hearing another language spoken. There is also a strong possibility that you had difficulty being heard as a child. You may have been interrupted a lot before completing what you had to say, or you may have developed the habit of interrupting others as the only way your voice or ideas could be heard. Perhaps in school there were special learning problems.  
The result of these experiences is that your mind has developed in an unusual direction. You are both more open to the unconventional, the provocative, the surprising, yet you may feel misunderstood by people. You will often alienate people through interrupting or being provocative, or simply coming with crazy ideas which are neither here nor there. Many of these communication techniques have been developed to get attention - but is this the kind of attention you want? You also have a tendency to live too much in your head. Get into your body and down to earth. When you use your inventive or intuitive talents on a practical level, you can serve as a fountain of inspiration for others.

---

## Mercury Sesquisquare Pluto

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

The influence of this aspect is deeply unconscious and sporadic, though when felt it can manifest itself in uncompromising conflict with others.

**PROFESSIONAL - MENTALITY:** From secrecy to openness  
You have an investigative mind and considerable talent for finding out about hidden issues and analysing things in depth. You are also good at keeping secrets. As such you are a natural detective and are able to find the root cause of problems. This is a useful talent in psychological matters, when working with computers or anything requiring fanatical attention to detail. There is an ability to tap hidden sources of information. In your professional life, however, you are inclined to be suspicious, fearing that important information is being kept from you. People can feel that you interrogate them, and they tend to clam up. Sometimes you express yourself far too forcefully and do not allow people to come with their views. Success comes when you overcome communication problems connected with anxiety.

**PERSONAL - MENTALITY:** From secrecy to openness  
You are a rather secretive person; you think hard and deeply, and sometimes you are plagued by compulsive ideas and fears. Much of this is a result of childhood anxiety connected with lies, secrets or lack of communication. Because you do not always let on what you are thinking, you can easily be misunderstood. Put people's minds at rest by clearing up these misunderstandings and strive to be as open as circumstances permit. When your feelings are hurt you can be silent for long periods. And when you are insecure, you tend to be suspicious of your partner. Harmony in relationships comes when you resist the tendency to argue for hours at a time, or to use silence as a weapon, and instead learn to be open and trusting.

**THE MIND - MENTALITY:** From secrecy to openness  
As a child you were deeply affected by secretive behaviour on the part of parents or siblings. You had a strong intuition that important facts were kept secret from you - you may indeed have been lied to in connection with some profound truth. Later in life you may well have discovered the details of what has been kept from you - this can for example have something to do with secret connections your parents had - for example half-brothers or sisters you never knew about. There is a strong possibility that a family member was extremely non-communicative or silent in a rather disturbing manner. Perhaps you too felt that it was difficult to make your voice heard. Whatever the actual circumstances, the result of this is a gnawing doubt concerning the truth of what you hear, so that you are often driven to deeply question the motives or actions of others. Sometimes your tendency to cross-examine will drive a partner behind a protective wall of silence for long periods of time; sometimes you too will clam up as a way of applying pressure in a relationship.  
As you overcome these difficulties you learn to relax more in communication matters. By giving people the time and space to respond to your questions without anxiety, and by allowing people to have their secrets if they so wish, you can attain peace of mind. Ultimately your life will be enriched by the discovery of quite unique mental abilities on a deep psychological level.

## Values

### Venus In Taurus

**PROFESSIONAL - VALUES:** Protect your values

You have a strong sense of values, and will tend to become powerfully attached to the things which are dear to you. With your fine appreciation of quality, and your determination to get value-for-money, you have a professional talent for dealing with banking, finances, material items and perhaps matters concerning houses and land. You are basically a reliable type with excellent judgement and you expect to be paid generously for these qualities. Being quite materialistic, you have a strong need for a solid income. Material possessions become a showcase for self-worth. You are however a careful investor, capable of saving up for the things you want.

**PERSONAL - VALUES:** Protect your values

A woman with this position will be physical and sensual. There is a strong need for a stable relationship with physical and material expressions of love. Gifts work wonders here, and body contact is important. Men with this position will seek a reliable and very feminine partner, and a good sex life will be an important ingredient in the relationship. Other things being equal there is a tendency to enjoy long and stable relationships. Material needs can be a point of contention, and economic upheavals strongly test the relationship. Both sexes will tend to have a gentle and loving nature with a great capacity for enjoying the good things in life. You have a true appreciation of nature and of the beauty inherent in things, and you feel a deep satisfaction connected with the things you acquire during the course of your life.

### Venus In 5th House

**PROFESSIONAL - VALUES:** Romance

You have an advanced sense of style and aesthetic judgement, with a creative flair for making a good impression. With a talent for presentation in one way or another, you generally thrive in situations where you are in the forefront displaying your talent for design or other matters of good taste. You pride yourself on your good breeding and may be something of a snob. It is extremely important for you to have positive feedback for the work you do. You thrive on admiration.

**PERSONAL - VALUES:** Romance

You are an extremely romantic person, in love with the idea of love. You believe in the noble virtues of chivalry, wooing and being wooed, and are extremely good at making romantic gestures. Your weakness is in matters of the heart, and you will almost certainly have a number of passionate love-affairs in your life. There is a narcissistic element to your inclination for romance - eyes that adore, gifts that prove your importance to the loved one. Although you can reap tremendous pleasure from matters of the heart, you may find that romantic passions burn out all too soon. Having children can satisfy your need to give and receive love, and bring peace on the relationship front. You can spend a lot of money on adornment and have an inclination towards extravagance.

### Venus Conjunction Mercury

Please read page 9: "Mercury Conjunction Venus"

### Venus Sesquisquare Mars

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances. As there is tension between these two planetary influences in your chart, it will be very difficult for you to achieve the promised beneficial results before the age of 30.

**PROFESSIONAL - VALUES:** Enjoyment

You have a dynamic creativity, but how you use it depends greatly on the nature of the aspect. Harmonious contacts between Venus and Mars give an exciting and winning nature, and the ability to work creatively with both sexes in whatever field you may be in. Inharmonious aspects also give considerable creative power, but conflict regarding sexual roles can sabotage success in one way or another. There is a strong erotic element in your character, and this can lead to sexual involvements which distract you from your business. Men with these aspects tend to be more active in their sexual pursuits, women often feel they are on the receiving end. It all depends on the unconscious signals that you send, as you have a natural sex-appeal. If all goes well you can emanate warmth and congeniality which brings professional popularity. This can lead you to success in many fields, especially those in which physical strength is combined with grace in some form. You would also work well in public relations, and in dealing with children. Entertainment and having a good time can be very important for you in your work.

#### PERSONAL - VALUES: Enjoyment

As Mars and Venus are the male and female archetypes, this combination brings a powerful need to resolve the dilemma between the sexes. Harmonious aspects show greater ease in this matter, but inharmonious contacts and the conjunction bring extremely difficult challenges. Often confusion about the sexual role stems from the impression given by the parents concerning their love-life, particularly if infidelity was involved. Women with this aspect often experience a strong contrast between the demands of femininity and those of sexuality, and in extreme cases the man is perceived as being a primitive only interested in sexual satisfaction. Actually the woman sends strong sexual signals but gets confused about the response she receives, not knowing whether to take the initiative, (ladies don't do that), or be passive. The paradox is that women with this aspect have strong masculine traits, and can resent the man taking the initiative. Men with this aspect will sometimes have rather feminine traits, and have difficulty taking the initiative.

Whatever the circumstances, the erotic life plays an important role in the character, and there is a strong tendency towards sexual involvements which can be a threat to stable relationships. There is in both sexes a difficulty in integrating the loving nature with passion and desire - when to be tender and affectionate, when to go your own way? When to be attached, when to be detached? When to be chaste, when to let the body take over? When a balance is found, then there is great potential to have enjoyable relationships on both the physical and spiritual level.

## Venus Opposition Uranus

This aspect is of medium strength and its influence will often be felt, though not acutely.

This aspect shows a strong polarisation in your chart, and difficulty in integrating the principles described. There may be travel and separation in connection with the principles described below.

#### PROFESSIONAL - VALUES: Untraditional relationships

You need to work in an exciting environment where you are together with people who have untraditional ideas, or who come from unusual cultures or backgrounds. You function best when you meet a number of different people during the course of your working day - preferably interesting or unconventional types. You have a talent for working with the media - you may also function well in a job which brings travel to exotic places. As you have a strong interest in consciousness-raising groups you may get involved with political, spiritual or social movements. You function well in a team - but not in a conventional working environment where you meet the same people all the time. You need to feel as free as a bird. You have a talent for making

friendships - you make an electric impression on others, but actually you are rather detached yourself.

#### PERSONAL - VALUES: Untraditional relationships

The major characteristic of your love-life is your need for excitement and the unpredictable, coupled with a restlessness which you feel when relationships do not offer you the opportunity for personal development. You have a tendency to form relationships to people from foreign countries, different cultures or unusual environments - in other words with a person who can bring an element of the exotic into your life. Often you can find yourself in a situation, in which you choose not to actually live together with a partner. Preferring to keep your independence - especially as regards the freedom to have your own friends - you maintain the excitement of romance by periodic meetings where you can constantly have your need for excitement fulfilled. In extreme cases you experience "airport-love" - short but exciting relationships with someone from another area of the world. In this way you avoid committing yourself emotionally. If you want a more permanent or stable relationship, or if you would like to feel more secure with your loved-one, it is essential to make a deeper emotional commitment.

#### LOVE - VALUES: Untraditional relationships

You have a rather original attitude to relationships which probably comes from early experiences of the relationship between your parents, or perhaps an unusual connection with a sister, or an unconventional bond to another female. The upbringing may be characterised by mixed messages as regards your own sexual identity - daughters perhaps encouraged to develop a masculine style and sons a feminine. Your parents' love-life may have been characterised by sudden separations; at least something in your upbringing has evoked a tendency in you to be very detached and rather cool in the expression of love. You instinctively anticipate a sudden break of emotional bonds, and learn at an early age to go your own way.

Later in life this inability to commit yourself fully to an emotional bond creates distance in your love-life. You send the unconscious message that you can do without the partner, and this in itself can lead to the sudden separation you inwardly are trying to avoid. If a potential partner does not experience commitment from you, he or she will go elsewhere. Your romantic signals also attract people who have no intention of committing themselves and imagine they can have an "enlightened" (non-committed) relationship to you. By cultivating exciting social bonds to interesting people, you can satisfy the need for stimulation which one relationship cannot provide by itself. It is not your fate to be bound by traditional concepts of marriage - you can show by personal example the many alternatives that exist to conventional relationships.

## Venus Quincunx Neptune

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

It is difficult for you to integrate the energies of these two planets, as they relate to different sense systems in your body. You should make some progress with this after the age of 30.

#### PROFESSIONAL - VALUES: Acceptance

You have an extraordinarily refined aesthetic sense. Disharmony evokes an almost physical unease in you, so you are strongly motivated to recreate balance in your inner and outer world. Professionally this can manifest in a career where matters of taste are important, or diplomatic talents necessary. You are especially suited to public relations matters, but your genuine compassion for other people may incline you to work helping others in some way. Although you may be strongly inspired by items of physical beauty, you will rarely be satisfied by material well-being alone. You have musical and artistic

talents.

#### PERSONAL - VALUES: Acceptance

You are willing to make sacrifices for love, and as an incurable romantic you are skilled at creating circumstances for personal disappointment, either through poor judgement regarding potential partners, or unrealistic expectations. You are looking for more than a worldly love - you need to feel as if your soul is touched by your partner, you need to feel a spiritual bond. To be happy in this area of your life you must understand and accept so-called imperfections in others. The perfect partner does not exist and you will never find him or her. It is important to choose an equal - not someone you idealise or want to save and it is important that the chosen one shares ideals and dreams which transcend conventional relationship needs. Unhappiness and dissatisfaction in love is actually the result of unconscious impressions from your distant past, and these feelings actually have a spiritual purpose now.

#### LOVE - VALUES: Acceptance

You have the capacity to develop a deep spirituality and compassion of an almost religious nature. Worldly relationships will never fulfil all your needs, though spiritual or creative practice might. You tend to start love relationships with tremendous dreams and ideals, yet after a few months you will often feel let down by the partner. Actually the partner - not wishing to disappoint you - tries to live up to your ideals in the first stage of the relationship, but reverts in time to his or her true nature. Men with this influence will often give the female partner the impression that she is imperfect in some way and this can lead to her losing self-confidence and ultimately become very unhappy. Both sexes tend to imagine that the ideal relationship is just around the corner, or idealise an old relationship which never became actualised....all the better to dream about.

If you examine your past carefully you will find that this pattern of unrealistic expectations arises from childhood experiences. One of the parents - most probably the mother (and possibly a sister) - will have expressed a deep dissatisfaction and longing for another kind of relationship than the one she had. This may well have been expressed non-verbally. The unconscious message to you was that the ideal relationship exists but is unattainable. Thus you are on the alert for flaws in your chosen partner - and miraculously they arise. This is a complex projection based on an unconscious disappointment programme. As awareness dawns about this, you learn to resolutely avoid false expectations, and see both your own weaknesses and those of others in a compassionate light.

### Venus Quincunx Pluto

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

The connection between these two planets means that you tend to overcompensate in the areas described by being too helpful. This means that you unconsciously encourage other people to take advantage of you.

#### PROFESSIONAL - VALUES: Transformation of values

You have the ability to awaken deep sympathy in the hearts of other people, and you are probably willing to go to great lengths to be appreciated. Your attention to others can evoke a very positive atmosphere and genuine good feelings, if you learn to avoid a few simple weaknesses. You tend to go too far in pleasing others and trying to create a good impression. In this way you can monopolise some people and alienate those who are not impressed by your apparent charm. Businesswise you have a special talent for getting the most out of resources. You can see the value in items other people might throw away, and can turn waste into something valuable. Financially you must avoid the trap of getting into debt by buying prestige items. Do

not throw good money after bad. Above all avoid becoming economically dependent on others - you could end up being manipulated.

#### PERSONAL - VALUES: Transformation of values

Your intimate relationships are characterised by their intensity. You are simply not interested in a superficial or casual relationship. You have a tendency to invest a lot of energy into winning love and attention and this is actually a throwback to childhood experiences which equated love with survival. You will often feel that it is fate that has brought you and your partner together, and that nothing will break the bond that has been established. Unfortunately, an unconscious fear of losing love can result in many exhausting emotional scenes. Relationships can lurch from crisis to crisis. When these negative influences have been transformed you will discover a real talent for giving loving support to others.

#### LOVE - VALUES: Transformation of values

At a very early age, love for you was equated with survival. Your relationship with both your mother, and possibly with a sister, was deeply complicated in this respect. A very real anxiety about losing love - and therefore parental life-support - has led you to develop an oversweet nature calculated to win affection. You invest your charm 200% in achieving this goal, and are normally successful.

Problems arise later on in your life because in the long run this investment of emotional energy is exhausting for all parties. It is very difficult for you to be consciously aware of what you do. Anxiety about losing love leads to intense love relationships, where jealousy plays an unspoken role - partly because you feel you have to be so intimate with everyone. In some cases you may subordinate yourself to your loved one and be misused, yet, paradoxically, it may be you who wields the power later on.

It is a great relief for you later in life, when you realise that relationships function better when you relax. People like you more when you don't try so hard to please. You have so much love to give, why worry about how much love you get? And if some people don't like you, so what? - you know about the power of love.

## Drives

### Mars In Libra

PROFESSIONAL - DRIVES: Manifest your judgement.

You have a strong sense of justice and are strongly motivated to create balance in your working environment. Your greatest asset is your aesthetic sense, and this can manifest in employment where matters of taste are important - for example fashion, decoration and other areas where a good judgement is required. Your manners are most probably rather refined. There can be an element of indecisiveness as far as decision-making is concerned. First of all you are not comfortable offending others, and secondly you have a true ability to see both sides of an issue. By coming down on one side or another imbalance is created, and this brings a sense of discomfort. So you will tend to make compromises and generally get by on your charm. This can be a disadvantage in situations where a firm stance is required. People feel nervous when they don't know what position you take - this can give an untrustworthy impression. It can be an advantage for you to jump sometimes, instead of staying on the fence.

PERSONAL - DRIVES: Manifest your judgement.

Other things being equal, you will have a gentle manner and controlled temperament, except in situations where you feel an injustice is being done. In these circumstances you fight hard to get a fair hearing for yourself and others. You have a natural flair for handling public relations, and this can certainly give you

success when dealing with the opposite sex. Men with this position of Mars have a tendency to flirt, and may take advantage of women through being manipulative. Women are attracted to men with good taste, poise and style, though there is a tendency to be deceived by appearances and smooth talk. Conflicts in relationships can arise over unfaithfulness or differences in opinions as regards taste and judgement. Though you are strongly motivated to enjoy partnership, contention often arises in one area or another. You are on the one hand reluctant to get into conflict, yet on the other quite sharp in your judgement of others.

## **Mars In 9th House**

**PROFESSIONAL - DRIVE:** Intellectual pioneer

Your opinions and convictions are an important part of your professional life. You have a strong desire to increase your knowledge and understanding, but you function better when you are self-taught. Too many intellectual conflicts arise when other people try to foist their opinions on you. You are extremely powerful - perhaps too dominating - in putting forward your point of view. Nevertheless you can have success as a teacher or working in some field which necessitates persuasion or the spreading of information and ideas. You are very dynamic in your outreaching to others and may travel a considerable amount in connection with your work.

**PERSONAL - DRIVE:** Intellectual pioneer

You are a fearless searcher for truth and understanding, and this search may well bring you to foreign lands. You are an explorer type, constantly striving to increase your horizons and develop your interests. Women with this position of Mars are often attracted to men from a different culture or country, men may discover partnership abroad. You have strong opinions and these probably arose because you had to hold your own against an intellectually dominating brother, father or perhaps teacher in your early days. As a result you tend to be too aggressive when defending your own convictions. Your spiritual development may be profoundly affected by a mentor of some kind, though you have little inclination to subjugate yourself to the principles or convictions of anybody else. You may see your God as wrathful or severe, but you are inspired to rise to meet spiritual challenges in your journey to find truth.

## **Mars Conjunction Saturn**

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

**PROFESSIONAL - DRIVE:** Discipline

You are the workaholic type, and can during the course of your life develop an incredible self-discipline. You may have special talent for working in the building industry, or with mechanics and engineering, or in any field which requires will-power and hard physical work. On occasions however, you can be stricken with inertia, and find it very difficult to get started. You have a fear of failure and can feel particularly vulnerable in competitive situations with other men. Difficulties can arise with male

authorities, as you are very sensitive to being dominated or ordered around. You have the will-power and ability to work for yourself, being particularly good at making long-term plans and strategies. To succeed professionally it would be to your advantage to work smarter rather than harder. You can end up using all your time on monotonous work precisely because you are so disciplined and persevering. It can pay for you to take a risk, even though you have a strong fear of failure. Try to be motivated by anticipation of future success rather than fear of past difficulties.

**PERSONAL - DRIVE:** Discipline

As a child your spontaneity was probably hindered in some way, and there may have been difficulties with a father or brother connected with discipline and responsibility. Your upbringing may have been rather authoritarian, even to the point of physical violence. There may have been a strict moral code in the family. In later relationships you expect a lot of resistance, so you invest a lot of energy either in self-control, or in trying to impose your authority. Women with this aspect are often attracted to older men, who tend to become buried in their work. Often the relationship develops in such a way that the woman feels dominated - but this can be due to hidden unconscious needs to recreate the atmosphere of structure and discipline from childhood, and a refusal to discipline her own life. Men place a high priority on their professional life to the detriment of their emotional or sexual relations. A fear of being controlled can bring battles of will and severe confrontations. These problems resolve themselves with time, as you learn to relax and be kinder to yourself. Less work and more play and greater flexibility as regards behavioural rules leads to more rewarding relationships.

**SEX & POWER - DRIVE:** Discipline

This influence indicates that sexuality can be a battleground in which you struggle to gain confidence in your sexual life. You have many unconscious sabotage mechanisms which can result in sexual frustration. These stem from several possible areas: as a child you may have been aware of a parental reluctance or disgust about sex or there may have been a heavy moralising. Alternatively you may have felt humiliated or dominated by male members of your family and wish to see them powerless. Generally speaking you will have developed a negative attitude to sensuality and your body. Later in life greater attention to your body, health and muscles and a discipline of physical training can greatly help you develop a more positive body consciousness.

The man with this aspect is terrified of not being able to live up to male stereotypes regarding sexual performance. Fear of failure in bed can render him at best dutiful but uninspired, and at worst impotent. However he does have one advantage - generally speaking he is slow to feel physical arousal and therefore can maintain love-making over a longer period of time before orgasm. Through developing a gentler and more sensitive approach to sex, perhaps with more humour and a willingness to talk about feelings of inadequacy - in other words through enlisting his partners support - a gradual improvement of the sex-life will ensue.

Women with this aspect will often experience a reluctance to have sex on the part of their male partner. Long periods of time elapse without any sex at all. At worst the man may be unable to maintain an erection, feel impotent, bury himself in his work etc. This situation arises because the man is made to feel inadequate. The woman is slow to be aroused, and the man may ejaculate early without feeling the comfort of having satisfied the woman. Obviously this scenario does not have to repeat itself too often, before the man withdraws into his cave as an ascetic. The solution is simple enough. As the woman, because of childhood difficulties, has a desensitised body, she needs to instruct the man - with respect - in what gives her pleasure. She must overcome unconscious drives to undermine

a man's confidence ( - and what better place to do it than in bed? -) and resolutely encourage the man by giving support and praise to his ego, for the feeling of sexual inadequacy is crushing for a man. By gradually revitalising the man's confidence in this way the sexual desert transforms itself into an oasis.

### **Mars Square N. Node, Mars Square S. Node**

This aspect is of medium strength and its influence will often be felt, though not acutely.

There will be great difficulty in integrating these two planetary influences, and the promised harmonious results will only arise after you have expended time and effort.

#### **PROFESSIONAL - DESTINY: Survival of the fittest**

You will often find yourself in the midst of the fray in your professional life, with many struggles as regards asserting yourself in groups. Conflict will touch your life in a central way, and no matter what you do you cannot escape the leadership role which puts you in the forefront. You may find yourself involved in a dynamic co-operative venture involving men and a strong element of competition, though achieving harmony or a unified goal may be an elusive quest.

#### **PERSONAL - DESTINY: Survival of the fittest**

You can portray the essence of masculinity or dynamism in your nature, probably as a result of hard-won battles at key points in your life. This may mean that you are pushy or aggressive in your social relationships, with little regard for opposition, though you may try to choose a life in which you shun confrontation. Coming to terms with the power of sexuality its pleasures and obsessive quality - is a major life challenge. Dealing with conflict is also a lifelong dilemma for you, as you are denied the opportunity of indulging your weaknesses, and are forced to seek a position of strength in your dealings with others.

### **Jupiter Semisextile Uranus**

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances. The influence of this planetary connection is difficult to discern, though it can have an effect either spiritual or material attitudes.

#### **PROFESSIONAL - WISDOM: Exhilaration**

This aspect can last for a number of months and have a strong collective influence. If you harness this influence in your career you will have a strong idealism both socially and as far as introducing new methods are concerned. Your provocative views will be a challenge to the establishment. You are an internationalist, and wish to concern yourself with issues that cut across national borders. This can bring travel to exotic lands and contact with exotic cultures. You can channel enormous enthusiasm about the future into your career - for you the path of liberation lies in innovation and experimentation. You would

thrive in an international organisation, and as you also have strong humanitarian tendencies you may choose to work in a field which has to do with social reform or perhaps consciousness-raising.

#### **PERSONAL - WISDOM: Exhilaration**

You have a driving need to expand your philosophical boundaries and this can lead to unusual personal interests and provocative opinions as regards both personal and social development. You can have some form of connection to the New Age movement, and are very interested in reforms. You will almost certainly embark on dramatic long-distance travels and experience enlightenment through new contacts established thereby. In relationships you are inspired by partners and groups who can share your untraditional interests. An international group can have a radical effect on your life. You pride yourself on your open-mindedness and tolerance - yet you are intolerant of intolerance. You tend to upset groups with your radical opinions, but perhaps you could achieve your goals more effectively by understanding the traditions that lie behind established opinions.

#### **COLLECTIVE - WISDOM: Exhilaration**

As Uranus takes 84 years to orbit the Sun, and Jupiter 12 years, they meet each other in conjunction every 14 years. This cycle is experienced on a collective level as a burst of technological progress and euphoria concerning change and progress. For example Armstrong took his first step on the Moon at the exact time of a Uranus/Jupiter conjunction in 1969. President Reagan dreamt up his "Star Wars" idea at the time of the next conjunction in 1983. Humanity is gripped by exhilaration and a new sense of its destiny. This influence also brings revolutionary changes to the organised education system, student rebellions, judicial reform, New Age convictions and radical new developments in travel - for example mass tourism. It is a time when there is a surge of revolutionary energy amongst young people and often an optimistic economic expansion.

### **Jupiter Sextile Neptune**

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart.

The sextile aspect is favourable, and stimulates your capacity to learn from experience. You can expect the negative effects to be minimal.

#### **PROFESSIONAL - WISDOM: Expansive dreams**

As these planets are relatively slow-moving their influence is felt most on a collective level. Insofar as you channel their influence in your profession you will wish to work on the collective effect of knowledge, the intellect and social influence. There may be a talent for marketing or advertising or selling a dream or vision. There can also be a drive to evangelise on a social, religious or political level. You can be strongly motivated by altruistic ideals and identify with some kind of vision or dream that transcends your own dreams. On a more down to earth level there can be a talents for dealing with oil and related products - particularly plastics. There may also be an interest in oceans, the film industry and anything which enchants on a collective level. You can be hopelessly overoptimistic - heed realistic advice!

#### **PERSONAL - WISDOM: Expansive dreams**

This influence shows that you can be moved by dreams and visions. There will be some aspect of your life in which you are touched by something magic that completely transcends your everyday life. This can bring great happiness, if you choose to cultivate your intellectual drive towards greater spiritual understanding through creative, artistic or meditative interests. At the same time there may be a total lack of grounding, or a

tendency to be completely absorbed by unrealistic ideas. There are dreamers of dreams who achieve nothing, and weavers of dreams, who can bring visions down to earth. Ultimately people will be disappointed in you, if you are the former. You have the capacity to make faith and hope guiding lights for your actions.

**COLLECTIVE - WISDOM:** Expansive dreams  
As Jupiter takes 12 years to go around the Sun and Neptune 165 years, the two planets meet in a conjunction cycle every 13 years. It is a time of spiritual progress. At this time humanity is gripped by great hopes concerned with an ideal future of some sort. People work to achieve Utopia - and though as a rule disillusion comes, there will be a period when people are joined in unselfish love for a shared ideal. This is a time when the bubble expands, when optimism exceeds all bounds, when the balloon rises to the greatest heights. Before everything comes down to earth again the human soul is enriched and touched by the divine. Intangible things become tangible in a magical way - there can be a special emphasis on music, art and the media.

## Jupiter Conjunction Pluto

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart. This conjunction shows a fusion of energies in you. Both the positive and negative sides of this aspect will be an integral part of your character.

**PROFESSIONAL - WISDOM:** Transformation of beliefs  
This influence is often felt more collectively than personally. This is a combination that shows power in one form or another: big money, the power of ideology, the law. You will have very strong convictions and an intense sense of justice, and as such will often find yourself getting involved in issues connected with beliefs, righteousness, power and the misuse of power - especially as far as large organisations are concerned. Success comes when you encourage tolerance in yourself, and flexibility concerning your views, thereby overcome a tendency to be unresponsive to the opinions of others. Systems of positive thinking can transform your life.

**PERSONAL - WISDOM:** Transformation of beliefs  
Your beliefs will undergo a profound transformation during the course of your life. It is important for you to bear this in mind, as you often defend your convictions with an compulsive persuasiveness which can be dominating in personal relationships. You may be aware of an obsessive need to be right, or a consuming hunger to acquire insight, and this can be rather exhausting for those closely involved with you. By resisting the temptation to impose your beliefs on your partner, and by being open and curious about other people's opinions, you can attain harmony. You will certainly develop considerable psychological insight in your life, and this may benefit you both privately and professionally.

**COLLECTIVE - WISDOM:** Transformation of beliefs  
Jupiter orbits the Sun every 12 years, whilst Pluto takes 246 years. Consequently Jupiter catches up with Pluto approximately every 13th year and. After 6« years, Jupiter is in opposition to Pluto, and every 3 years Jupiter is square Pluto. This planetary cycle is reflected in events which affect the world on a global scale. But if you have an aspect between these two planets in your birth horoscope, your personal efforts can be very significant in carrying out collective transformations. You will often experience major change at the conjunction, square and opposition - at these times you will discover what your destiny is in relation to this planetary cycle and society. This 13 year cycle show the ebb and flow of ideological and financial power. Mass changes of consciousness occur at the start of each new cycle inaugurating new collective beliefs. There will often be enormous ideological power battles in society. Jupiter/Pluto shows the disproportionate power exerted

by small secret groups, for good or ill.

## Jupiter Conjunction MC

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy. This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

**PROFESSIONAL - GOALS:** Counsellor  
Your foresight and understanding are important assets in your career. You can work in an advisory capacity, and may function well in areas concerned with publishing, travel, law or international affairs. Superiors tend to support you and ensure your promotion. Your chief weakness is a tendency to overestimate your own importance, and to foist your own views on colleagues. You need meaningful goals, and when you follow them you are destined for success.

**PERSONAL - GOALS:** Counsellor  
Fortune smiles on you in family and professional matters. Your upbringing was probably quite enlightened, and many of the strong views and convictions you have stem from the example of your parents early in life. You want to achieve a position of importance in your community. You appreciate space around you in your home environment. You may have a tendency to be showy, and when it comes to property, this can be expensive.

## Challenges

### Saturn In Libra

**PROFESSIONAL - SELF-RELIANCE:** Social responsibility  
Saturn was in this sign in the years 1921-23, 1950-53 and 1980-82. There was a strong emphasis in society on the principles of justice, and on partnership institutions. Expressed in your own career, you may find yourself assuming a professional role in which your judgement and diplomatic abilities are important. You will often find yourself sandwiched between people with differing views, and your word will carry weight in these situations. You are slow to pass judgement, and very concerned about any miscarriage of justice. You are good at dealing with people, and can acquire a position of authority in this respect. Your own role in society is important for you, and professional advancement depends on your overcoming shyness and fears about relating. You can feel a little stiff and formal when dealing with people, but you will quickly win their respect once you let the barriers down.

**PERSONAL - SELF-RELIANCE:** Social responsibility  
There was a general theme around the year of your birth in which commitment to others, particular in relationships, was an important issue. In your own relationships you will strive to overcome selfish needs and discipline yourself to take the needs of others into account before you take action. In this sense you are a person of your word when you make a relationship commitment. You are also characterised by fair-mindedness and patience when it comes to dealing with others. One of the major challenges in your life is to relax more with others, and to drop a defensive formal shield which prevents a deeper, emotional intimacy. Though you are good at dealing with people on a superficial level, you can be at a loss when emotional themes are broached. Though your early life will bring challenges and difficulties in partnerships, deeper devotion arises in your love life as you mature.

---

## Saturn In 9th House

**PROFESSIONAL - SELF-RELIANCE:** Intellectual training  
During the course of your life you overcome a feeling of inadequacy as regards your intelligence and judgement, and through concentration and training - and perhaps a commitment to higher education - you can become a kind of intellectual authority in one field or another. Your ability to draw wise conclusions from experience, and your careful analysis of the truth, may give you a talent in an area which requires sober analysis and judgement. You have the capacity for serious study, and you are able to show other people a path of understanding through a philosophical system or set of rules. You are very conscious of your place in the intellectual hierarchy and a little too inflexible in your opinions or understanding of what truth is.

**PERSONAL - SELF-RELIANCE:** Intellectual training  
Gaining intelligence and understanding has a high priority for you. As a young person you were probably exposed to parents or teachers who had strong and rather inflexible opinions and you may have had difficulty because of some kind of orthodox dogmatism. Hindrances may have arisen as regards the pursuance of a further education. Ultimately a lack of intellectual confidence drives you to improve your mind, so that you become able to define your own beliefs about the meaning of your existence. You are attracted to some kind of spiritual system or hierarchy, and have a tendency to believe in a strict set of moral rules connected with spiritual growth. You have the capacity to study long and hard - you do not expect the way to understanding to be easy. Special challenges may be connected with abroad, or a spiritual teacher who demands personal discipline. It pays for you to be more receptive to the opinions of others, and less defensive about your own convictions.

## Saturn Semisquare Uranus

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.  
You can expect this influence to be hidden and sporadic in its effect - which is negative, especially as concerned social issues, and issues of self-worth.

**PROFESSIONAL - SELF-RELIANCE:** Structural renewal  
This rare combination of planets is part of a 46-year cycle, and the influence will affect everyone over a period of approximately a year. In so far as you channel this influence through your career you have the capacity to deal with large organisations and will often find yourself in the position of establishing a bridge from the old to the new. With one foot in tradition and the established values of collective experience, you will also have to deal with the necessity of reform to adjust to a new future. Depending on which side of this equation you are on, there can be conflict with established authorities. Thus you will often be confronted by two separate and very different camps with very different viewpoints. You deal with social structures which have outlived their usefulness; perhaps a revolution is necessary to make room for the future. You can be skilled at finding ways of putting new technology to practical use. You can work in areas concerned with social reform.

**PERSONAL - SELF-RELIANCE:** Structural renewal  
Your personal struggle is very much connected with when to release your attachment to the past and open yourself and your life to the necessity of change. Often you hang on to restrictive

life-patterns too long, and when sudden change comes - as it invariably does - the edifice you have built up can disintegrate as you uncompromisingly embark on a completely new venture. You tread the tightrope between generations and have the capacity to bridge the gap between young and old. Sometimes you identify with the establishment, yet there will come decisive breaks as you violently strive to adjust to change. You have a role in society in which you should bear the banner of reform.

**COLLECTIVE - SELF-RELIANCE:** Structural renewal  
As Saturn takes a little under 30 years to orbit the Sun, and Uranus 84 years, these two planets meet in a conjunction cycle every 46 years. Saturn represents the forces of the past and the establishment, and Uranus the force of the future. Needless to say, this is an uncomfortable meeting which tends to bring violent upheaval in the world. In mythology, Saturn, who never was very keen on change, castrated Uranus. There was a conjunction in 1942 during World War II, and in 1988 which marked the beginning of the end for the Soviet Union and Eastern Europe. This combination shows the degree of integration of reform in society, and, depending on the kind of aspect, how peaceful this process is. Generally there is a strong polarisation between the old and the young at stressful phases on this cycle - for example during the opposition in 1965, when young people dropped out of established society. The aspect also marks milestones in the practical use of modern technology.

## Saturn Conjunction Pluto

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.  
This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

**PROFESSIONAL - SELF-RELIANCE:** Re-evaluate personal power  
Normally this influence is felt more collectively than personally. The main issue here is the structure of power - its use and misuse. In your life you are sure to encounter people and organisations who have a powerful position in society, for good or ill. This can for example include the police, tax authorities, corporations or secret organisations. When this influence becomes strong in your life, you will find yourself in a position which requires enormous willpower. This can lead to the overthrow of powerful people, or the collapse and restructuring of powerful institutions. It is your mission to transform the unacceptable use of authority. You also have the capacity to wield power and in doing so reform organisations.

**PERSONAL - SELF-RELIANCE:** Re-evaluate personal power  
You can both be a victim of tyranny, and a person who unconsciously adopts an authoritarian style yourself. The energy you invested in survival early in your life can give you an imposing and even frightening aura. You have to make sure therefore that you use your natural authority to empower rather than weaken others. In intimate relationships you are extremely sensitive to the misuse of power and any sense of helplessness. If you unconsciously overreact in this area it may be you yourself who evokes fear in your partner. In times of crisis you may use the threat of allowing your life structure to disintegrate totally to keep your partner in line. Do not be afraid to be gentle and tender.

**COLLECTIVE - SELF-RELIANCE:** Re-evaluate personal power  
Saturn orbits the Sun every 29½ years, and Pluto takes 246 years. Therefore Saturn overtakes Pluto every 35 years. Politically this cycle often leads to the restructuring or the painful birth of nations. The conjunction took place in 1914, 1947 and 1982. The first two dates saw the beginning of World

---

War 1, and then the birth of Israel, Pakistan, India (the fall of British colonial power), and, a little later, Communist China. 1982 was the beginning of the disintegration of Lebanon and the nuclear stand-off between USA and the Soviet Union in Europe.

The key issues here are colossal power confrontation with ideologies strongly at variance. Politically there is no way around power battles. Old structures experience their death-throes as they outlive their usefulness. Organisations are stripped to their bare bones. Only by profound surgical cut-backs can new growth take place. Major turning points in this 35-year cycle will take place at approximately 9 year intervals. When you are born under this planetary phase, it can be your destiny to live out the collective idea, by working intensely on restructuring processes in society.

## **Saturn Square N. Node, Saturn Square S. Node**

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

There will be great difficulty in integrating these two planetary influences, and the promised harmonious results will only arise after you have expended time and effort.

PROFESSIONAL - DESTINY: Old karma

You have an aura of authority in the circles you frequent, and you have the ability to influence the groups and organisations to which you belong, because of your sober and realistic attitude. You feel a kind of responsibility for the society you live in, even though it may not treat you well. Despite the fact that you feel uncomfortable in larger groups you can still effect lasting changes in the structure of society. You are ambitious enough to be the person through which structural forces in society are channelled. You know what you want and have surprising willpower, but you feel the hand of fate behind every step you take.

PERSONAL - DESTINY: Old karma

The course of your life is arduous and full of trials. You are shadowed by the hand of some authority wherever you go, and later you discover that this authority is a part of your own character. You are moved to build something great, but are fated to see great things dissolved by the passage of time. People will instinctively defer to you socially, but the mantle of loneliness rests on your shoulders. When making decisions you rarely choose the easy option - knowing that time is of the essence, you pursue each issue in life with painstaking thoroughness.

## **Originality**

### **Uranus In Sagittarius Retrograde**

Because of the relative position of this planet in relationship to the Sun and Earth, it appears to be moving backwards. This may make you more thoughtful or introverted in the area concerned.

COLLECTIVE - ORIGINALITY: Journey into space

Uranus takes 84 years to orbit the Sun and is in this sign for 7 years, representing a collective influence on a whole generation. It shows how you are most influenced by revolutionary attitudes in society. When the Ascendant is in Aquarius this influence will be expressed in a more personal way.

Uranus was in Sagittarius from 1897 to 1904, and again from 1981 to 1988. Collectively this was felt as an expansive surge into new frontiers, and considerable optimism in society as regards the future. There was a strong internationalism in these periods, reflected by trends in mass travel and sport. At the

same time there was an immense popular surge to increase knowledge into new fields, partly reflected by new policies in adult education.

If you reflect this collective influence in your personal life, you will be a true cosmopolitan, and probably indulge in considerable long-distance travel to expand your knowledge of the world you live in. You are powerfully affected by your generation's belief in principles of freedom and human rights. The global impact of the media will be important to you, and you may have a special talent for educating the masses or getting an idealistic message across on a collective scale.

### **Uranus In 11th House**

PROFESSIONAL - ORIGINALITY: The outsider

You have the ability to integrate some rather revolutionary concepts about social organisation into your professional career. Being rather dissatisfied with the social status quo, you have a vision of reform in which social benefits are distributed on a fairer basis. You may find yourself associating with progressive organisations which espouse the interest of special groups. Your role in these matters is more as catalyst than organiser - you are very good at galvanising people or ushering in an era of change because you have the capacity to identify social structures which stand in the path of development. You have the ability to work with untraditional groups - especially people from foreign countries who feel themselves as outsiders. You may also have a talent for group work with untraditional, perhaps New Age, interests.

PERSONAL - ORIGINALITY: Outsiders

You seek inspiration in unusual friendships being more interested in the spiritual benefits of the company of others rather than the need for security or to be one of the crowd. You prefer the outsider role - early experiences in your school years will have alienated you socially and left you little time for the false comfort of the group. You benefit greatly, however, from contact with consciousness-raising groups. You are attracted to people who stand out from the crowd - people from abroad, or from unusual cultures, or with unusual opinions or provocative life-styles - and though you can have a number of strong friendships with this type of person, these bonds are loose and characterised by long periods of estrangement. Shocking or unpredictable developments come through friends. Friends can sometimes break off contact without warning and this may be because they find you too emotionally remote, or because you befriend the kind of person who is not really capable of forming deep emotional bonds.

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances. The influence of this planetary connection is difficult to discern, though it can have an effect either spiritual or material attitudes.

**PROFESSIONAL - GOALS:** Radical goals

Strange and sudden changes of direction can sweep you from one career to another, until you gravitate towards a job which satisfies your need for excitement and unconventionality. You have a talent for consciousness-raising matters, but there may also be technical interests, or a fascination with exotic lands or cultures. Your relationship to authorities can be rather strained, as you hate being categorised or ordered about. Your independence is very dear to you.

**PERSONAL - GOALS:** Radical goals

Unusual circumstances connected with your parents or your childhood have stimulated an interest in an unorthodox career or family life-style. You may be attracted to a form of communal existence, or you may choose to settle in an unusual environment. The urge for excitement descends on you unexpectedly at intervals in your life, and at these times you can enact radical career or domestic changes.

## Transcendence

### Neptune In Sagittarius Retrograde

Because this planet was retrograde at your birth, you will have an instinctive knowledge of, and attraction to, the following traits and activities. You will tend to be introvert in these matters, and pursue your own individual path in strong contrast to the path chosen by others.

**COLLECTIVE - TRANSCENDENCE:** Limitless horizons

Neptune takes 165 years to orbit the Sun, and approximately 14 years to go through one sign. Its influence affects a whole generation, and is associated with a new sensory and spiritual awareness, and greater compassion, in connection with the sign it is in. For most people this influence is experienced on a collective level, but those who have their Ascendant in Pisces will express it in a personal way in their lives.

Neptune was in Sagittarius from 1806 to 1820, and again from 1970 to 1984. A globalisation of human consciousness took place at these times, as people were made more aware of the world around them through travel and exploration. New boundaries were opened up and captured the imagination of the populace. These periods also heralded an expansion of religious consciousness, as other beliefs impinged on and undermined traditionally accepted religious convictions.

If you can express this influence in your life in a personal way you will be possessed by idealistic fervour as regards your beliefs and convictions on social, intellectual and spiritual matters. You are inclined to idealise spiritual concepts or mentor figures, but at some point in your life you are likely to be disillusioned. You are motivated by a search for eternal truth, but you will most probably discover that all human concepts are projections of the human spirit, and therefore in the last analysis illusory. Foreign countries and travel may play an important role in your personal development.

### Neptune In 12th House

**PROFESSIONAL - TRANSCENDENCE:** Spiritual longing

You have a deep consciousness of the universality of suffering and may be moved to work in some field in which you can minister to the spiritual and emotional needs of others. You can work with people who are isolated from society in some way, or you may choose to isolate yourself. On a practical level you have a talent for working with the intangible in the professional world - advertising and film, drugs and chemicals, music and poetry for example. You have the capacity to draw from a deep well of intuitive knowledge in your working life, and this talent can be harnessed in work of a more subtle nature - clairvoyance, prayer or world service in one way or another.

**PERSONAL - TRANSCENDENCE:** Spiritual longing

You have a need to seek meaning on a deep spiritual level, and you will during the course of your life try to define your spiritual values and beliefs. At an early stage of your life you will be disillusioned by the traditional beliefs you inherit from family and the society around you. Formal spiritual service cannot satisfy your deep longing to be at one with the universe. You may be inspired by ideals of self-sacrifice and martyrdom, and as such find appeal in the Christian faith, yet you are destined to be disappointed if you invest your hopes in doctrines and spiritual figures. Through a lifelong process of inner refinement, and perhaps through some special form of personal sacrifice or withdrawal from society, you will ultimately find meaningful spiritual values. You can find refuge in nature, the sea and creative retirement.

### Neptune Sextile Pluto

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

The sextile aspect is favourable, and stimulates your capacity to learn from experience. You can expect the negative effects to be minimal.

**PROFESSIONAL - TRANSCENDENCE:** Mass vision

These aspects are very rare and last a very long time. Indeed, as Pluto moves within the orbit of Neptune in the closing years of the 20th century, the present sextile aspect between the two planets lasts from 1940 to 2040 - one hundred years - so almost everyone has it! If you are able to manifest this influence on a personal and professional level (through powerful contacts in your own horoscope), it may be connected with a deep spirituality and creativity. There can be talent for dealing with the media and wide-ranging themes connected with the masses. Material issues will be less important for you than the realisation of a collective dream. There can be clairvoyant powers, and abilities connected with dreams, symbols and visualising. In industry there can be a talent for dealing with oil, the film industry or the transforming power of collective visions.

**PERSONAL - TRANSCENDENCE:** Mass vision

If you have this influence powerfully evoked by other factors in your horoscope, you will be deeply affected by spiritual issues, and constantly seeking to refine your consciousness. At these times you are likely to experience great personal disorientation and confusion, as old dreams and visions are replaced by new, deep psychological insights. Inner growth will have major priority in intimate relationships. During periods of your life you will undergo deep transformations in which your fantasy and imagination will play a powerful role. It is essential to learn to use your imagination in a positive way by learning about the power of the unconscious.

**COLLECTIVE - TRANSCENDENCE:** Mass vision

The Neptune/Pluto planetary cycle is connected with spiritual evolution on Earth and whole generations share this present harmonious aspect which - lasting as it does from 1940 - 2040 - is connected with a deep spiritual transformation process

affecting the whole of human consciousness. Neptune catches up with Pluto every 492 years, in what can be considered a spiritual seeding period for our planet. New collective ideas emerge at the start of this cycle, evoked by sudden developments of the technology and discoveries of the time. The major conjunctions since the birth of Christ were 411 AD, (disintegration of Roman empire), 904 AD, 1398, and 1891-2. This last conjunction in the sign of Gemini may therefore partly relate to the revolution of transport (flight and automobiles) and communication (radiowaves) which has such immeasurable effects on our consciousness today.

## Transformation

### Pluto In Libra Retrograde

Because of the relative position of this planet in relationship to the Sun and Earth, it appears to be moving backwards. This may make you more thoughtful or introverted in the area concerned.

**COLLECTIVE - TRANSFORMATION:** Balance of power Pluto has an irregular orbit around the Sun which takes about 248 years. When Pluto is closest to the Sun it takes only 12 years to traverse a sign. When it is furthest away, it takes approximately 30 years. Its influence is felt collectively on a very deep level in society, bringing trauma, transformation and renewal in regard to the sign it is in. Individuals with their Ascendant in Scorpio may express this influence in a personal way, otherwise its effect is expressed as an underlying influence on a whole generation.

Pluto was in Libra from 1725 to 1738, and again from 1971 to 1984. Major reorientations in human relationships took place at these times. Accepted modes of partnerships and the institution of marriage were challenged by a collective need for greater balance and a restitution of equality. Politically this was the era of the balance of power, with an underlying threat of destruction. Socially people related in a new way which undermined relationship taboos. Ideological concepts of right and wrong led to the destruction of a social harmony which previously had been based on exploitation.

If you are able to channel this collective influence in a personal way, you will be very concerned about your personal relationships, and they will be a source of private intense turmoil. You may feel called upon to redress injustice in some way, and you are inclined to be ruthless in your judgement, even to the extent of risking social alienation. A relationship of great depth - and the necessity of cutting seemingly unbreakable bonds - may form the backdrop of a major transformation in your life.

### Pluto In 9th House

**PROFESSIONAL - TRANSFORMATION:** Ideology You have extremely strong ideological convictions, and you are prepared to fight for them. This intensity and determination can be an asset in a job which requires more than the gentle art of persuasion as regards getting the other people to see your point of view, or if you have to work with getting a difficult message across. Knowing the weaknesses of the human mind you can learn powerful communication techniques and use them in a very convincing manner. You know how to make an offer people can't refuse. You also understand the power of a faith or belief, and you have the psychological capacity to change other people's ideas through the power of your own beliefs.

**PERSONAL - TRANSFORMATION:** Ideology The pursuit of truth and understanding can sometimes be seen as a survival issue for you. In your upbringing you may have been the victim of a strong-willed person with tyrannical

convictions, perhaps at home, perhaps in school. At any rate you now identify very strongly with your own convictions, and have an irrationally strong reaction when people disagree with you, or try to influence your beliefs. You are intellectual inflexible. Relationships can stand or fall on ideological issues - particularly if you have a Scorpio Ascendant. Yet, if you look back on your own past you will see that you have totally abandoned ideas you totally believed in and fought for - so is it wise to defend your ideas with such intensity now? A transformation of beliefs brings a deep psychological change in you in the late thirties. This may be connected with a journey which brings emotional catharsis. At this time you may discover a talent for psychological or spiritual matters.

## Destiny

### N. Node In Cancer, S. Node In Capricorn

**PROFESSIONAL - DESTINY:** Coming home You live the first part of your life with a profound inner drive to make an impact in society and win the respect of your peers. Success can come early, yet the feeling of satisfaction that success should bring is absent. You come to appreciate that the need for status or recognition is one which can never bring you true fulfilment. There is an emptiness to your ambitions. The flaw lies in unfulfilled emotional needs which cannot be satisfied when you invest all your energy into career drives. A career reorientation which allows you to come into greater contact with your feelings and intuitions - perhaps in a caring profession - will bring you into closer alignment with your destiny. This can mean turning your back on the allures of the marketplace at a critical age.

**PERSONAL - DESTINY:** Coming home The early part of your life is characterised by a rather hard attitude to getting on in the world. You are probably profoundly influenced by parental views regarding work, ambition and success, and feel that you have to live up to their demands in these areas. As you mature you become aware of a need for greater contact with the world of feeling and emotional enrichment. There is a reorientation from the masculine to the feminine, and this may be expressed by a new attitude to family, children and the home. Priorities can change so that there is less emphasis on your goals and a realisation that your energy is best invested in the family and your immediate environment. This process can be heralded by a deepening of your intuitive awareness, which replaces a previous sceptical or

---

materialistic spirit.

### **N. Node In 7th House, S. Node In 1st House**

PROFESSIONAL - DESTINY: Discovering others

Major turning points arise concerning your relationship to others in the middle part of your life. Early in your life most of your instincts are concerned with maintaining personal freedom and independence. Professionally you will be split in your attitude as to whether you should cooperate with others, or make it on your own. In your mid-thirties you will probably accept the necessity to build up a variety of contacts and important professional relationships, and this will bring success. It is essential to shift the emphasis from individual fulfilment to greater consciousness of fulfilling the needs of others.

PERSONAL - DESTINY: Discovering others

Self-sufficiency is not a problem for you, but you have a lot to learn in intimate relationships concerning the value of compromise and seeing things from another's point of view. You find as you get older that you derive less and less satisfaction from fulfilling purely personal interests, and this leads to a radical shift of personal values. The greatest personal development arises in your intimate relationships, as you strive to replace egocentric interests with the spirit of partnership. There can be a major turning point here around the age of 37. The greater the depth in your personal relationships, the deeper the level of satisfaction you feel.
